PART I.

GENERAL SUMMARY.

Personnel of the Administration.

The office of Resident was held throughout the year 1893-94 by Mr. T. Chichele Plowden, C.S.I. The office of First Assistant and Secretary for Berar to the Resident was held up to the 19th April 1893 by Mr. G. R. Irwin; from the 20th April to the 13th October 1893 by Mr. O. V. Bosanquet; and thereafter by Mr. A. L. P. Tucker. The office of Commissioner of the Hyderabad Assigned Districts was held throughout the year 1893-94 by Colonel K. J. L. Mackenzie, C.I.E. Mr. F. S. Bullock, the permanent Judicial Commissioner of the Province, was on furlough up to the 22nd November 1893, and held charge of his office during the remainder of the year.

Survey and settlement.

2. The survey and settlement operations now in progress have to deal with 13,350 square miles: the revision settlement operations will cover 12,000 square miles; the survey and settlement of leased villages and waste lands deal with 950 square miles; and the initial settlement of the Melghat, 400 square miles. Two survey parties were employed during the year under report, and their total expenditure came to Rs. 36,164. One of the parties was employed on revision work in the Khamgaon, Jalgaon and Balapur taluks of the Akola district, and finished 444,993 acres at a cost of Rs. 22-3-5 per square mile; and the other party was employed in leased villages in the Wun, Kelapur and Darwha taluks of the Wun district and the Pusad and Mangrul taluks of the Basim district. This party measured 71,838 acres and classed 73,436 acres, the cost per square mile being Rs. 182-8-11. At close of the year under report proposals for the revision settlement of the Khamgaon, Jalgaon and Mulkapur taluks were under the consideration of the Government of India, but with the exception of some subsidiary questions, orders have since been passed thereon, as well as for the settlement of leased villages in the two taluks named above of the Basim district and all the four taluks of the Wun district. Preliminary proposals for the settlement of the Melghat were also discussed and settled.

Waste lands.

3. As will be seen from paragraph 16 *post* of this summary, culturable assessed waste lands formed 4·41 per cent. (*i.e.*, 501,085 acres) of the total area of the province. By far the larger portion of this area, *i.e.*, 476,917 acres, belonged to the Wun district and the Melghat taluk of the Ellichpur district. The area of unoccupied land newly occupied during the year was 19,325 acres, and that of occupied land relinquished was 6,938 acres.

Leased villages.

4. The number of leased villages at the end of the year was 506 with an aggregate area of 922,883 acres, of which 121,945 acres had remained unoccupied. The remaining area was occupied and bore an assessment of Rs. 1,13,518.

Course of legislation.

5. The Bombay Boilers Inspection Act, II of 1891, and portions of the Sea Customs Act, VIII of 1878, were applied to the province during the year under report, and an addition was made to the Berar Rural Boards Law. Rules were issued under the Sea Customs Act and the Indian Factories Act, XV of 1881; the rules previously issued under the Registration Act, III of 1877, and the Berar Rural Boards Law were modified or added to.

Police.

6. The Police force of the province was slightly increased during the year. Its strength consisted of 9 gazetted officers, 555 subordinate officers and 2,363 constables, or one policeman to six square miles and 992 of the population. The aggregate expenditure on the force amounted to Rs. 5,52,961.

7. The total number of cognizable offences (exclusive of nuisance cases) fell from 5,860 in 1892 to 5,737 in 1893, the decrease being spread over all classes of offences. Of the cases that occurred, 72·7 per cent. were investigated by the police, and the percentage of police cases in which conviction was obtained was 66·6 against 59·7 in 1892. The number of persons arrested and summoned was 8,447. The proportion of stolen property recovered was 27·2 per cent. Non-cognizable offences also fell from 7,319 in 1892 to 6,715 in 1893.

8. There was less crime in the Berar Railway Police jurisdiction than in 1892, and it was more successfully dealt with.

Criminal justice.

9. Exclusive of the local High Court and the Sessions Court, the number of tribunals at the close of the year was 72. The number of offences reported was 17,616 against 19,137 in 1892, but only 82·2 per cent. were returned as true, and 64·4 per cent. brought to trial. The number of persons tried was 21,623 against 22,239 in 1892; of these 98·2 per cent. were disposed of (57·9 per cent. by discharge or acquittal, 35·7 per cent. by conviction, and the rest otherwise). Of the persons convicted, 10 were sentenced to death, 71 to transportation, 2,851 to rigorous imprisonment, and 13,643 to fines; other punishments were inflicted on the rest. The average duration of cases tried by Magistrates was 7·7 days against 7·1 in 1892. The number of witnesses was 39,667, of whom over 79 per cent. were discharged after one day's attendance. The number of persons tried by the Sessions Court was 124, of whom 62·1 per cent. were convicted. All cases except those in which the accused pleaded guilty were tried with the aid of assessors. The total number of appeals for disposal was 727, of which nearly 93 per cent. were disposed of.

Jails.

10. During the year under report (1893) no alteration took place in the status of any of the six jails in the province. The average general-jail population was higher than in any previous year except 1880, the total admissions being 3,275, and the discharges 3,093, and the daily average strength 1,284. Of the total admissions, 1,639 (244 Muhammadans, 1,391 Hindus, and 4 of other classes) were imprisoned during the year; 12 per cent. had been previously convicted. The percentage borne by the daily admissions into hospital to average strength was 2·73. Of the average number of convicts under sentence of labor nearly 49 per cent. were employed on manufactures and the rest were either unable to work or were employed on jail duties. The total net cost of the jails was Rs. 61,822, and the net cost per head of average strength, Rs. 48-3-0.

Civil justice.

11. The number of Civil Courts open was the same as in 1892, *viz.*, 43. The number of suits instituted was 27,193, of which 86·9 per cent. were for money or moveable property, 5·4 per cent. for immoveable property, 5·2 were mortgage suits, and the balance, *i.e.*, 2·5, belonged to other classes. Including pending and re-admitted suits, the total number for disposal was 34,455, of which 27,787 or nearly 78 per cent., involving an aggregate value of Rs. 32,40,763, were disposed of. The average value per suit was Rs. 126, and the costs came to 13·9 per cent. of the value. Of the suits disposed of nearly 94·5 per cent. were of value not exceed-

ing Rs. 500, and the average value in their case was Rs. 78·5. Nearly 75 per cent. of the suits were disposed of without contest, their average duration being 57 days, while in contested cases the duration was 106 days. The major portion of the work was done by Assistant and Extra Assistant Commissioners, whose share came to over 91 per cent. of the cases decided. As regards execution of decrees, the number of applications came to 32,235, of which 50 per cent. proved infructuous; full or partial satisfaction was obtained in 22·6 per cent., and the rest were either transferred or pending at the close of the year. The court and process fees came to Rs. 4,39,463, and the surplus of process fees (*i.e.*, process fees *minus* cost of service) amounted to Rs. 35,322. The number of appeals disposed of was 1,582, the average duration being 128 days in regular appeals and 115 days in miscellaneous appeals.

Registration.

12. The number of registration offices was the same as in 1892-93, *viz.*, 63. The total number of registrations was 35,183, a figure higher than any reached hitherto, and the total value of property transferred by them was Rs. 1,06,78,417. Of the number of instruments registered 94 per cent. related to immoveable property, the aggregate value involved being Rs. 1,02,82,286. The receipts of the Registration Department came to Rs. 88,080, and the expenditure was 55·4 per cent. of receipts against about 63 per cent. in 1892-93, leaving a net surplus of Rs. 39,282.

Municipalities.

13. Three new municipalities having been established at the beginning of the year their total number was 11. The aggregate income of these bodies amounted to Rs. 3,83,399, inclusive of a loan of Rs. 1,20,000 from Government. Their aggregate expenditure amounted to Rs. 3,66,930.

Local Boards.

14. Owing to the extension of the Berar Rural Boards Law to the Wun district, the only rural tract in which it is not now in force is the Melghat taluk of the Ellichpur district. The aggregate area in which the law is in force is roughly 16,000 square miles, with a population of 2,693,533 souls. There are 6 District Boards and 21 Taluk Boards. The income of the Boards during the year under report amounted to Rs. 6,52,812, of which 13·62 per cent. was contributed by provincial revenues, and the balance was derived from local sources. The expenditure aggregated Rs. 7,79,268, of which 49·5 per cent. was spent on public works, 25·22 per cent. on education, 11·13 per cent. on establishments, 7·9 per cent. on superannuation allowances and pensions, and the balance, *i.e.*, 6·25 per cent., on post offices, medical institutions, and other heads.

Military.

15. There is only one place in the province, *viz.*, Ellichpur, at which a military force is stationed. During the year under report the force consisted of a detachment of the Hyderabad Contingent, having a strength of 128 artillery and 813 infantry.

Agriculture.

16. Of the total area of the province, *viz.*, 17,735 square miles, 72·83 per cent. is culturable assessed land, of which 68·42 per cent. is in occupation, and the balance, *i.e.*, 4·41 per cent., waste. Thus the culturable occupied and the culturable unoccupied lands stood in the proportion of 94 to 6, but if the Melghat taluk (which is principally forest and in which the similar proportion is 25·2 to 74·8) be excluded, the proportion is 97 to 3, and taking into account only the khalsa villages outside the Melghat the proportion is 98·66 to 1·34. The total culturable assessed land in occupation

in the whole of the province was 7,766,167 acres, of which 12·6 per cent. was under grass and the balance, *i.e*, 87·4 per cent., under crops—61·9 per cent. under kharif, 25·2 per cent. under rabi, and 0·3 per cent. under garden and miscellaneous crops. The principal crops grown were, as usual, jawari, cotton, wheat, linseed, gram and tur, and they occupied respectively 31, 32·2, 13·7, 8·5, 3·8 and 2·8 per cent. of the cropped area. The area under irrigation forms only a small portion—18,787 acres.

Rainfall.

17. The average rainfall over the province amounted to nearly 37 inches, *i.e*, two inches below the normal fall. It was unseasonable in Akola and Wun and in parts of the Basim district, and deficient in the Ellichpur district, and the crops in those districts suffered in consequence.

Agricultural stock and horse-breeding.

18. The statistics regarding agricultural stock show some fluctuations, but the figures are not susceptible of check. The number of mares covered by Government stallions was 106, but trustworthy information regarding the stock produced by them is not available.

Loans to cultivators

19. The amount advanced to agriculturists was Rs. 43,609—Rs. 39,450 under the Land Improvement Loans Act and Rs. 4,159 under the Agriculturists Loans Act.

Cattle disease and veterinary

20. The number of attacks during the year under report amounted to 16,859, of which 5,217 were cases of anthrax, 2,440 of rinderpest, 1,347 of hoof and mouth disease. Of the number attacked 56 per cent. recovered and 44 per cent. died.

Prices of produce and wages of labor

21. As will be seen from paragraphs 98 and 99, on pages 30 and 31 of this report, there was a general fall in the prices of produce, but the wages of labor remained the same as in 1892-93.

Arboriculture

22. At the close of the year under report the number of nurseries maintained was 80 and of avenues planted 325 miles. The gross expenditure incurred during the year on arboricultural operations came to Rs 42,933 and the receipts to Rs. 3,216.

Forests

23. The total area of State-forests was 4,157 square miles or 23·4 per cent. of the total area of the province, against 4,233 square miles at the close of 1892-93, the decrease being due to rectification of errors and the disforestation of certain forest lands. With the exception of 19 miles in the Wun district all forest boundaries have been demarcated. The aggregate area under fire protection was 1,389 square miles, of which 97·2 per cent. was successfully protected, the cost of protection being Rs. 8-9-7 per square mile against Rs. 7-3-2 in 1892-93. Working plans for 952 square miles were complete at the close of the year, and others for 1,920 square miles were in hand, leaving the rest of the area to be dealt with The total amount spent on forest works was Rs. 37,708—Rs. 22,225 on roads, Rs. 13,302 on buildings, Rs. 1,296 on water-supply, and the balance on miscellaneous works. The forest revenue of the year was Rs. 4,79,475, and the expenditure Rs. 2,64,318, the gross and net revenue per square mile thus being Rs. 115 and Rs. 52 respectively.

Manufactures

21. The manufactures of the province are chiefly confined to twist and yarn, coarse cotton cloth and petty unskilled handicrafts. Besides the cotton weaving mill at Badnera and two oil mills, one at Amraoti and the other at

Shegaon, the cotton presses and ginning factories worked by steam power are by far the most important industries in the province. The mill at Badnera produced 1,631,881 lbs. of twist and yarn, and 914,336 lbs. of cloth. Besides meeting local wants, the produce was exported to Delhi, Agra and the Central Provinces. The oil mill at Amraoti turned out 12,455 gallons of oil and 1,088 tons of oil cakes, while the Shegaon oil mill extracted 51,332 gallons of oil and 469 tons of oil cakes. There are altogether 36 cotton presses and 63 ginning factories, as against 28 and 58 respectively in 1892-93, under the management of private firms and joint stock companies.

Rail-borne trade.

25. Imports amounted to 4,053,000 maunds (value Rs. 2,60,45,000) and the exports to 3,760,000 maunds (value Rs. 4,83,60,000). Both imports and exports (except as regards quantity) considerably exceeded those of 1892-93. The bulk of the trade—both imports and exports—was with Bombay and the Central Provinces. The principal articles imported were cotton manufactured, grain and pulse, metals, oils, provisions, salt, spices and sugar, while the principal articles of export were cotton raw, cotton manufactured, and oil-seeds.

Road-borne trade.

26. Road-borne trade is registered only at ten selected stations on the borders of the Central Provinces. The total imports were 446,942 maunds and the exports, 204,044 maunds. The chief articles both of import and export were cotton, grain and pulse, oil-seeds and sugar. The cost of registration amounted to Rs. 4,938 during 1893-94.

Public works.

27. The total amount spent on public works from all sources during 1893-94 was Rs. 18,67,020, distributed thus:—Imperial services Rs. 33,924; provincial services Rs. 10,99,662; local funds Rs. 3,70,435; railways Rs. 88,294; and contribution works Rs. 2,74,705. Provincial and local fund expenditure thus amounted to Rs. 14,70,097, of which 5·8 per cent. was spent on military works and the balance, *i.e.*, 94·2 per cent., on civil works, and was distributed as follows:—Civil buildings 26·6 per cent., communications 54·3 per cent., and miscellaneous public improvements 13·3 per cent. Details of the works executed will be found in part II, paragraphs 126—132 *post* of this report. The principal contribution work is the Secunderabad water works, estimated to cost Rs. 7,08,598, the outlay during the year under report being Rs. 1,10,582.

Railways.

28. As stated in the preceding paragraph the expenditure on railways, *i.e.*, the Amraoti and the Khamgaon State lines, amounted to Rs. 88,294; and the net earnings of the two lines were 9·58 and 4·46 per cent. respectively on capital outlay.

Revenue and finance.

29. The gross revenue of the province during the year 1893-94 amounted to Rs. 1,25,18,275, and the total disbursements to Rs. 1,16,97,708. Omitting the receipts and disbursements of the Incorporated and Excluded Local Funds, the provincial surplus was Rs. 7,35,912, compared with a surplus of Rs. 7,74,562 for the year 1892-93. The amount paid to His Highness the Nizam during the year 1893-94 was Rs. 6,50,000, being a portion of the surplus of the previous years; and the accrued surplus in favor of His Highness the Nizam on 31st March 1894 was Rs. 40,63,099. Of the gross income, Rs. 1,01,74,746 were derived from Provincial Revenues, Rs. 9,40,130 from Incorporated and Rs. 14,03,399 from Excluded Local Funds. Rs. 94,38,834 of the Provincial revenues,

Rs. 13,18,711 of the Excluded Local Funds, and the whole of the Incorporated Local Funds revenue were utilized. The provincial contract shows a deficit of Rs. 2,12,980, and is recouped from the balance at credit of the Resident in his previous contract account. The net accrued balance therefore in favour of the Resident at the close of 1893-94, inclusive of Rs. 5,00,000 allowed for any extraordinary emergencies in accordance with paragraph 4 of the Government of India Financial Department Resolution No. 5957, dated 5th November 1887, was Rs. 6,93,818. As compared with the previous year, the receipts show an increase under almost every revenue head. The only important exceptions are Opium, Law and Justice—Courts of Law, and Education under Civil, and 14. Miscellaneous Services under Military. The receipts of the State Railways and Public Works Departments also show considerable decreases. The decrease under Opium is due to the lesser quantity of opium imported into Berar during the year. The decrease under Law and Justice—Courts of Law chiefly occurs under magisterial fines, a fluctuating head of account not subject to regular influences. The decrease under Education in 1893-94 as compared with the actuals of 1892-93 is chiefly due to the Taluk Fee Fund receipts, which were formerly kept outside the Government accounts, having been credited in the accounts of the latter year. Under 14. Miscellaneous Services the decrease is nominal, as the actuals of 1892-93 under the same head included exceptional cash recoveries of service payments in previous years. The decrease in the State Railways receipts is due to the falling-off in merchandise traffic on both the railways, and that in the Public Works Department receipts is chiefly due to an account adjustment made in 1892-93 in connection with the Buldana sadar station and town water-works. As regards expenditure there has been an increase under nearly every head. The expenditure under the following heads shows decreases, *viz.*, 19-A. Law and Justice—Courts of Law, 38. State Railways, 45. Civil Works, 5. Stud and Remount Establishments, &c., 14. Miscellaneous Services, and 19. Widows' Pensions, &c. The decrease under Law and Justice—Courts of Law occurs under the head Judicial Commissioner, and is due to the appointment of a lower grade officer to officiate as Judicial Commissioner during several months of the year. The decrease under State Railways is due to the falling-off in traffic. The decrease under Civil Works is owing to the larger expenditure incurred on the Akola water-works from provincial funds in 1892-93 than in the year under review. The decrease under Stud and Remount Establishments, &c., is due to the purchase of a lesser number of remounts. The decrease under Miscellaneous Services is attributable to a lesser expenditure on account of camp of exercise than in the previous year. The decrease under Widows' Pensions, &c., is chiefly due to the transfer of certain arrear pensions, formerly debited to Hyderabad Contingent, to the Military Department, Bombay, under orders of the Government of India. It remains to be noted that increase of expenditure in the year under review is partly attributable to a new cause, namely, the payment of exchange compensation allowance to domiciled Europeans. The total charge under this head for the year amounts to Rs. 91,326.*

*Civil	... Rs.	38,591

Vital statistics.

30. The total number of births registered was 111,924, the birth-rate being 39·3 per mille as compared with 39·9 in 1892. The proportion of male births to female births was 106·6 to 100. The total number of deaths was 92,951 or 32·6 per mille as compared with 28·8 in 1892 and 36·3 the mean of

the previous decade. Of the death-rate of 32·6 per mille, fevers and dysentery and diarrhœa contributed 21·2.

Medical relief.

31. Two new dispensaries having been opened the number of medical institutions rose to 46—8 civil hospitals and 38 dispensaries, maintained at an aggregate expenditure of Rs. 83,473. The total number of patients treated was in-door 4,298 and out-door 318,767, the average daily attendance being 134 in-door and 2,166 out-door patients. Of the total in-door patients treated, 86 per cent. were cured.

Sanitation.

32. During the year under report (1893) the Municipalities spent 29·3 per cent. of their income on conservancy and drainage, and 69·4 per cent. on water-supply. The Kapsi water-supply scheme for the town of Akola, which is almost complete, has served to swell the percentage of expenditure on water-supply.

33. The total expenditure incurred by District Local Boards on works of sanitary improvement was Rs. 93,578 (exclusive of a sum of Rs. 50,659 spent on works not purely sanitary) as against Rs. 1,48,571 in the preceding year. No large works were undertaken, yet a good deal was done during the year to improve the public health, especially under water-supply.

Vaccination.

34. The number of primary operations performed during the year under report (1893-94) was 97,786, of which 95·1 per cent. proved successful, while re-vaccination cases numbered 39,366, the percentage of success being 21·2. The total cost of the establishment was Rs. 17,495, the average cost of each successful case being two annas and nine pies.

Education.

35. The year under report (1893-94) was, on the whole, an unhealthy one in most districts of the province, and this combined with bad harvests adversely affected the progress of education. The number of boys' schools and of pupils decreased from 1,324 and 51,541 to 1,274 and 50,168, respectively, the percentage of male scholars to male population of school-going age having thus fallen off from 22·92 in 1892-93 to 22·24 during the year under report; but it is satisfactory that the average daily attendance increased, and that girls' schools improved in attendance and efficiency. The results of the matriculation examination were gratifying, 17 boys having passed out of 28 sent up, and the middle schools and primary schools acquitted themselves satisfactorily on the whole at the annual examinations. Although the number of indigenous schools and their numbers on rolls decreased, the total number of pupils examined and the total amounts of grants earned increased. A greater number of Muhammadan pupils passed at the annual examinations than in 1892-93; and though there was falling-off in the number of boys, the number of Muhammadan girls attending school increased. There was a rise both in the number of low-caste pupils under instruction and in the number of passes. Popular contributions rose from Rs. 9,378 in 1892-93 to Rs. 9,632, and the fee receipts from Rs. 57,486 to Rs. 58,193. The total expenditure came to Rs. 4,51,155, of which 54·7 per cent. was from provincial revenues and the balance from local sources. Twelve per cent. of the expenditure was on direction and inspection, 19 per cent. on secondary schools, 52·5 on primary schools, 2·3 per cent. on training schools, 2 per cent. on scholarships, and the balance, *i.e.*, 12·2 per cent., embraced all other heads.

Changes in the Administration.

Changes at head quarters of Government.

7. The office of Resident was held throughout the year 1893-94 by Mr. T. Chichele Plowden, C.S.I., I.C.S. The office of First Assistant and Secretary for Berar to the Resident was held up to the 19th April 1893 by Mr. G. R. Irwin, B.A., I.C.S.; from the 20th April to the 13th October 1893 by Mr. O. V. Bosanquet, I.C.S., and thereafter by Mr. A. L. P. Tucker, I.C.S. The office of Second Assistant and Assistant Secretary for Berar to the Resident was held up to 28th April 1893 by Mr. O. V. Bosanquet, I.C.S.; from the 29th April to the 20th November 1893 by Mr. F. W. A. Prideaux, an Assistant Commissioner of the Berar Commission, and thereafter by Mr. W. E. Jardine, I.C.S.

Changes in Berar.

8. The office of Commissioner of the Hyderabad Assigned Districts was held throughout the year 1893-94 by Colonel K. J. L. Mackenzie, C.I.E., I.S.C. Mr. F. S. Bullock, I.C.S., the permanent Judicial Commissioner of the Hyderabad Assigned Districts, was on furlough up to the 22nd November 1893, and held charge of his office during the remainder of the year. During Mr. Bullock's absence Colonel H. C. A. Szczepanski, I.S.C., Deputy Commissioner of the 1st class, officiated as Judicial Commissioner of the Hyderabad Assigned Districts.

SECTION VIII.

Relations with Tributary States and Frontier Affairs.

CHAPTER II.

ADMINISTRATION OF THE LAND.

SECTION I.

Survey and Settlement.

Extent and nature of work.

10. The survey and settlement operations now in progress in the Hyderabad Assigned Districts embrace work under four main heads, *viz.*, (1) the revision of the thirty years' settlement in the whole of the province except the tracts comprised under the three heads following—about 12,000 square miles; (2) the survey and settlement of izara villages, *i.e.*, villages leased under the waste land rules, in the Wun and Basim districts and covering an area of about 650 square miles; (3) the survey and settlement of waste lands and of villages held in jagir and palamput tenures in the Wun and Basim districts, *i.e.*, an aggregate area of about 300 square miles; and (4) the initial settlement of the Melghat taluk of the Ellichpur district, about 400 square miles. Thus the total area to be dealt with is 13,350 square miles.

11. In the revision operations, the original measurements and classification are being left untouched except in the very few cases in which remeasurements and reclassification are considered necessary. On the commencement of work in a taluk a few villages are remeasured as a test of the old work. Hitherto the old work has been found trustworthy, and there is no reason to anticipate that it will not be so throughout the province, although the test mentioned will be continued. Exclusive of the test remeasurements, the following are the only cases to which measuring is confined in the revision operations, *viz.*, (1) boundaries of all the old survey numbers bordered by streams; (2) boundaries in rocky or "*barad*" (light soil) lands where any change is apparent; (3) old survey numbers in which the boundary of actual occupation as defined by boundary marks differs from that shown in the original measurers' books and maps; (4) old survey numbers from which land has been taken for public or special purposes; and (5) numbers containing mixed description of lands, such as rice and garden lands. As to reclassification, the work is almost insignificant, being confined to the following cases, in which it has become necessary to value the soil in order to facilitate settlement, *viz.*, (1) land watered by channels from tanks or streams; (2) old numbers formerly shown as unculturable, but now bearing assessment; (3) lands on the banks of streams that show an increase in area; and (4) newly formed survey numbers. The case is, however, different in the leased villages. There the work consists of original measurement and classification and demarcation of lands hitherto unassessed.

Field parties and their employment.

12. During the year under report (1893-94) there were two field parties. One under the Survey Officer was employed on revision survey of khalsa villages in the taluks of Khamgaon, Balapur and Jalgaon of the Akola district, and consisted of a nimtandar and 21 efficient hands, 11 of whom were professional measurers and classers and the remaining 10 were from the indigenous agency of taluk classers and munsarims. The other party was under the Assistant Director of Land Records and Agriculture with a staff of one nimtandar and 13 professional measurers and classers, and was mainly employed on the measurement and classification of leased villages in the Wun and Basim districts.

Outturn of survey work and cost

13. The following two statements show the work done by the two parties during the years 1892-93 and 1893-94 and compare the cost :—

Settlement.

14. The report on the revision settlement of the taluks of Malkapur in the Buldana district and Khamgaon and Jalgaon in the Akola district was submitted to the Government of India, and their final orders were received after the close of the year under report. Some subsidiary questions are at present under consideration, but it is expected that the revised rates will shortly be introduced in the three taluks named.

Orders on the reports on the settlement of leased villages in all the four taluks of the Wun district, *viz.*, the taluks of Wun, Yeotmal, Kelapur and Darwha, and the taluks of Pusad and Mangrul of the Basim district, were passed after the close of the year under report.

Preliminary proposals for the settlement of the Melghat taluk of the Ellichpur district were discussed, and the Resident's orders were communicated to the Commissioner, Hyderabad Assigned Districts, since the close of the year under report.

SECTION II.

Waste Lands.

Culturable land not occupied.

15. It will be seen from the tabular statement in paragraph 86 of Chapter IV., Section I., of this Report that of the total culturable assessed land in the province, 501,085 acres or 4·41 per cent. of the total area of the province remained

unoccupied during the year 1893-94. The following table shows the distribution of this area:—

		Classification of villages.					Total for villages of all classes.

Occupied land relinquished and unoccupied land newly taken up.

16. Of the unoccupied land in khalsa villages 19,325 acres were taken up during the year under report, of which 9,825 acres were in the Melghat and 9,211 in the Wun district. The area of occupied land relinquished was 6,938 acres, of which 4,708 acres belonged to the Melghat and 1,157 to the Wun district.

Leased villages.

17. The following table furnishes statistics for the years 1892-93 and 1893-94 of the lands belonging to villages leased under the waste land rules:—

Residency Orders Notification No. 205, dated 18th July 1893.	Substituting a new rule under section 33 (*b*) of the Berar Rural Boards Law, 1885, for rule 20 of Part II of the rules published in *Residency Orders* Notification No. 57-A., dated 15th March 1892.

Protection.

No. and date of Notification of the Government of India or the Resident in which the rules were published	Subject of the Notification.
Residency Orders Notification No. 228, dated 1st August 1893.	Making certain addition under section 69 of the Registration Act, III of 1877, to rule 96 of the rules published in *Residency Orders* Notification No. 190, dated 15th October 1883.
Residency Orders Notification No. 299, dated 2nd October 1893.	Making certain alterations under section 69 of the Registration Act, III of 1877, in rules published in *Residency Orders* Notification No. 190, dated 15th October 1883.

SECTION II.

Police.

Strength and cost

22. The police force of the province was increased during the year under report (1893) by three subordinate officers and 14 constables, bringing the sanctioned strength to 2,927, made up of 9 gazetted officers (including the Inspector-General), 555 subordinate officers, 15 mounted constables, and 2,348 foot constables. The force is considered inadequate, and it is in contemplation to increase it as soon as funds become available. The proportion of police to area and population was 1 to 6 square miles and to 992 of the population. The aggregate cost of the force during the year was Rs. 5,52,961.

Equipment

23. Of the total number of subordinate officers and constables, 1,076 were provided with firearms, 1,129 with swords only or with swords and batons, and 713 with batons only.

Classification by race and religion.

24. Exclusive of the gazetted staff and the vacancies that existed at the end of the year, the remaining force numbered 2,825. Classified according to race, this consisted of 2 Europeans, 4 Eurasians, and 2,819 Natives. According to religion, there were 18 Christians, 1,113 Mohamedans, 1 Parsi and 1,693 Hindoos.

Health.

25. The number of deaths in the force was 35 against 36 in 1892, and the percentages of admissions into hospital to total strength ranged from 42·2 in the Akola district to 65·5 in the Wun district. The year under report was a very unhealthy one.

Conduct and discipline

26. The following is a comparative statement for the years 1892 and 1893 showing the conduct and discipline of the force:—

These figures are self-explanatory; but it may be added that the figures regarding dakaitis, which already show an improvement, are expected to show a still further improvement in the next report. Several of the dakaitis committed since 1890 were the work of formidable armed gangs, resident in the northern frontier of the Hyderabad State who used to carry on their depredations along the southern border of the Hyderabad Assigned Districts. The steps taken against these gangs in co-operation with His Highness the Nizam's Government have proved successful, and the gangs have now been entirely broken up. The following extract from the Resident's review of the Provincial Police Report for 1893 may usefully be quoted here:—

"The most important incident in the history of the year's crime is the successful action taken against the organized bands of dakaits who, having their head quarters in Hyderabad territory, harried the villages on the southern borders of Berar, and by their example incited Banjaras and other lawless characters in the Hyderabad Assigned Districts to crimes of violence. The Resident believes that the methods taken against these dakaits were the right ones, the offenders were tracked to their hiding places and there surrounded by a military force of adequate strength. Successful resistance became an impossibility, and none was attempted except by Utam Singh and Lab Singh. The next step was to bring the captured dakaits promptly to trial and to inflict exemplary punishment upon those convicted of crime. There is no deterrent so effective against violent crime as a sharp sentence following speedily upon arrest, and the Resident notes with satisfaction that both the Court of the Dakaiti Commissioners at Hyderabad and the ordinary tribunals in Berar disposed of the cases brought before them in a thoroughly efficient way."

Working of the police in cognizable cases.

29. The following figures summarize the working of the police and the results of police action as regards cognizable offences during the years 1892 and 1893:—

	1892.	1893.
Cases.		
1. No. of cases occurred (inclusive of old cases investigated during the year and cases pending from previous year)	8,966	8,607
2. Percentage of all cases (whether investigated by police or not) ending in conviction to cases occurred ...	51·0	52·0
3. Percentage borne by cases investigated by police to cases occurred.	78·4	72·7
4. Percentage borne by cases investigated by police and in which conviction was obtained to total cases investigated by police ...	59·7	66·6

Property.		
1. Value of property stolen Rs.	2,39,763	2,02,572
2. Percentage of property recovered ...	27·4	27·2

30. The number of persons called to security in 1893 was 106, against 55 in 1892. Security for good behaviour.

31. The number of non-cognizable offences amounted to 6,745 against 7,319 in 1892. In only 19 cases were the police employed. The total number of persons who appeared before the courts was 13,913, and of those 20 per cent. were convicted, the corresponding percentage for 1892 being about 25·5. Non-cognizable cases.

32. There were 10 escapes from police custody, of which 8 were recaptured. The corresponding figures for 1892 were 7 and 4 respectively. Escapes from police custody.

33. The following table compares the working of the Railway Police for the three years 1891 to 1893 :— Railway Police.

SECTION III.

Criminal Justice.

34. Besides the courts of the Judicial Commissioner and the Sessions Judge, the following was the effective strength of the Magistracy in the Hyderabad Assigned Districts at the close of the year 1893 :— Tribunals.

6 Deputy Commissioners.
20 First class Magistrates.
19 Second do.
11 Third do.
14 Special Magistrates.
2 Benches of Magistrates.

72 Total

There is no difference in the number of officers exercising magisterial powers in the cantonments of Aurangabad, Jalna, Mominabad and Hingoli in the dominions of His Highness the Nizam.

35. The subjoined table shows the number of offences reported during the past two years, and the manner of their disposal :— Amount of crime.

Years.	Offences reported.	Cases dismissed under Section 203, Criminal Procedure Code.		Cases struck off as false.		Cases returned as true.		Cases brought to trial.	
		No.	Per cent.	No.	Per cent.	No.	Per cent.	No	Per cent.
1892	19,137	2,986	15·6	964	5·04	15,187	79·3	12,292	64·2
1893	17,616	2,488	14·1	641	3·6	14,487	82·2	11,707	66·4

There was a net decrease of 1,521 or 8·6 per cent. in the number of new offences; of 498 in cases dismissed under section 203, Criminal Procedure Code; of 700 in cases returned as true; of 585 in cases brought to trial; and of 323 in cases struck off as false—which shows that due care is exercised in examining reports and enquiries.

The number of offences reported this year is the lowest that has been reported in the past five years. This falling off in crime is due to improved supervision by the Police and Magistracy, and especially to the increased attention to surveillance of bad characters. The result is satisfactory.

Classification of offences.

36. The following table is an abstract comparing the offences in each class with the number for the preceding year:—

	Total for 1893.	Total for 1892.	Increase.	Decrease.
Offences against the State	...	...	...	...

Total ...	13,885	14,215	75	405
Grand Total ...	14,487	15,187	88	783

False evidence and offences against public justice show an increase of eight cases. Offences against public tranquillity have decreased by 59 cases, and are fewer by 89 than in 1891. Contempts of the lawful authority of public servants also show a further decrease; the number of offences affecting the human body and against property remains practically unchanged. Under heinous crime, although murders and attempts at murder (31 and 7) increased by 1 and 2 respectively, a general decrease is reported. The Amraoti district, as last year, stands first in evil repute for this crime with 12 murders out of 31 for the whole province, while Buldana comes next with 8, one of the murders in this district being remarkable for its determined character. Cases of robbery and dakaiti decreased respectively by 17 and 14.

In the Hyderabad Contingent stations the offences during the year under report were classified as below :—

	1893.	1892.	Increase.	Decrease.
Offences against the public tranquillity ...	4	2	2	...
Do. by or relating to public servants	1	...	1	...
Contempts of the lawful authority of public servants	2	..	2	...

Do. under special and local laws ..	1	65	...	64
	89	135	30	76
	98	138	36	76

Net decrease 40

The number of offences against property has increased from 38 to 49, the increase being mainly in thefts of a petty nature. Under "special and local laws" there has been a large falling off. The decrease is almost entirely in breaches of cantonment rules.

Persons brought to trial.

37. The total number of persons under trial during the year, including the number pending at the close of last year, was 21,623, as compared with 22,239 in 1892. Of these 21,247 or 98·2 per cent. were disposed of as under :—

Died, &c.	730	or	3·4 per cent.
Discharged or acquitted ...	12,514	„	57·9 do.
Convicted	7,732	„	35·7 do.

Average duration.

39. The average duration of the cases disposed of by magistrates of all denominations for the year under report was 7·7 days against 7·1 in 1892.

Special jurisdiction of Deputy Commissioners.

40. The number of cases disposed of by Deputy Commissioners in exercise of their enhanced powers rose from 48 in 1892 to 72 in the year under report. Of the total number of persons disposed of under this section 66 or 41·2 per cent. were convicted. Of those convicted 15·1 per cent. were punished with terms of imprisonment exceeding three years, and their sentences were referred to the Sessions Judge for confirmation.

Summary trials.

41. The number of cases disposed of summarily fell from 436 in the last year to 375 in the year under report.

Trials of European British subjects.

42. Two European British subjects were tried during the year for criminal force and assault. Both the offenders were convicted.

Details of punishments.

43. The following statement shows the total number of punishments inflicted by the various classes of courts in the Hyderabad Assigned Districts :—

Class of tribunals	Year	Total number of persons punished	Persons sentenced to						Persons ordered to find or give security or recognizance to keep the peace or sureties for good behaviour.	Persons imprisoned in default of security for good behaviour.

	1893	4	4	.	...	...	.	...	...	...

In the Hyderabad Contingent stations the total number of persons sentenced to punishments of all kinds was 85 against 158 in 1892. Of these 85 persons 16 were sentenced to imprisonment, 35 to fine, and 4 to whipping. The rise in the sentences of imprisonment and whipping is attributed to the larger number of offences against property.

Fines.

44. The number of persons fined was 6,070, of this number 83·6 being fined less than Rs. 10 and 98·3 per cent. less than Rs. 50. The total amount of fines imposed was Rs. 53,699-10-3 against Rs. 70,762-3-3 in 1892, and the realizations were Rs. 46,016-6-6 against Rs. 61,480-15-6.

In the Hyderabad Contingent stations the amount of fines imposed was Rs. 1,942 and the total sum realized was Rs. 742, leaving a balance of Rs. 1,200 outstanding at the close of 1893. This is explained by the fact that a single item of Rs. 1,000 was due in Jalna.

45. The following table gives particulars of the attendance of witnesses during the past two years :— Witnesses.

	1893.		1892.	
	Number of witnesses.	Percentage.	Number of witnesses.	Percentage.

Total ..	39,667	100	42,479	100

The number of witnesses who attended the Hyderabad Contingent Courts during the year was 390. Of these 323 were discharged on the first day of their appearance, and 67 were detained for periods varying from two to four days. 361 witnesses were allowed to go unexamined. The longest detention occurred in the Hingoli Court, where three persons were detained for four days.

46. The following figures compare the working of the Court of Sessions during the past two years : Sessions Court.

	1892.	1893.

Convicted and sentenced to transportation for life	31	35
Convicted and sentenced otherwise ..	67	42

Percentage of convictions... ...	45·	62·1

Six cases involving 14 persons were left pending at the close of the year. The percentage of acquittals has fallen from 55· to 31·5, while convictions have risen from 45· to 62·1 per cent. The result is satisfactory.

All cases were tried with the aid of assessors, except six in which the accused pleaded guilty. The judge agreed with the assessors in 44 cases, and differed from one assessor in five cases, and from both in four cases. In one case the judge differed from three assessors and agreed with one. No European British subject was tried by the Court of Sessions. The average duration of cases fell from 58 days in 1892 to 46·4 days in the year under report.

47. The following statement shows the number of appeals instituted, disposed of, and pending in the criminal courts of the Hyderabad Assigned Districts during the past as compared with the preceding year :— Appeals for disposal.

*2 disposed of by death of appellants.

In the Sessions Court the percentage of confirmations and rejections was 67 as compared with 71·3 in 1892. The general percentage of sentences confirmed in the Appellate Courts of Magistrates has risen from 19·6 to 47·5, and the percentage of reversals has fallen from 37·6 to 22·4 per cent of disposals. The average duration of appeals for the province has fallen from 19·1 to 16·8 days.

SECTION IV.

Jails.

Status of jails and classes of convicts confined in them.

48. No alteration in the status of jails took place during the year. There are two large and four small jails in the province. In the Amraoti Jail, which during the year 1893 had an average jail population of 471·3, are confined all convicts (except transportation prisoners) sentenced in the Amraoti district, and convicts of the Ellichpur and Wun districts sentenced to terms exceeding six months. The Akola Jail holds all convicts of the Akola district, all prisoners sentenced to transportation in the province, juvenile prisoners and prisoners sentenced to terms exceeding six months in the districts of Buldana and Basim. It had an average daily population of 568·7 in 1893. The four other jails, namely, those at Ellichpur, Wun, Buldana and Basim, contain prisoners with terms up to six months' imprisonment sentenced in the respective districts, and prisoners with longer terms previous to their transfer to the larger jails.

The question of establishing one central jail for the province is under consideration

Jail population.

49. The average general jail population in 1893 was higher than in any previous year except 1880. The total admissions during 1893 amounted to 3,275 and discharges to 3,093. Adding the difference of these to the number in jails in the beginning of 1893, *viz.*, 1,197, the total at the end of that year was 1,379, the daily average strength being 1284·18. The following table gives comparative details for the years 1892 and 1893 of the total population of all the jails in the province :—

Classification of convicts according to religion, age and previous occupation.

50. Of the 1,639 convicts (1,531 males and 108 females) imprisoned during the year, 3 were Christians, 244 Mahomedans, 1,391 Hindoos, and one was a Jain. According to age 13 were under 16 years, 1,374 from 16 to 40 years, 230 from 40 to 60 years, and 22 above 60 years. Classified according to previous occupation, of the 108 female convicts 74 were married, 4 unmarried, 24 widows and 6

prostitutes. The previous occupations of the 1,531 male convicts are compared below with the corresponding figures for 1891 and 1892 :—

	1891.	1892.	1893.

52. Of the 1,639 convicts imprisoned during the year, 198 or 12·08 per cent. had been previously convicted, the corresponding percentage for 1892 being 11·8. Of the 198 reconvicted prisoners, 107 had been convicted once, 45 twice, and 46 more than twice. Previous convictions.

53. There was one escape during the year which occurred in the Yeotmal jail and was due to neglect of orders by the jail establishment. The prisoner was recaptured by the police the same evening. Escapes and recaptures.

54. The total number of jail offences was 1,035 against 662 in 1892. Of the former two were dealt with by Criminal Courts and the rest by Jail Superintendents, who inflicted 'minor' punishments in 829 cases and 'major' punishments in 204 cases. The proportion of all punishments to total jail population was 85 per cent. against 60·6 per cent. in 1892. Jail offences and punishments.

55. Of the convicts released during the year 146 obtained remissions under the mark system, the average remissions gained by them ranging from 48 days in the case of convicts with sentences above one year and not exceeding two years, to 357 days in the case of convicts with sentences exceeding ten years. Mark system.

56. The following statistics show the health of the prisoners for the three years 1891 to 1893 :— Health.

		1891.	1892.	1893.
Daily average strength		989·2	1150·6	1283·2

Employment of convicts.

57. The average number of convicts under sentence of labor on working days was 1058·2. They are thus accounted for—

Sick	...	...	34·29
Convalescent and infirm	...	...	27·87
On unremunerative labor	...	...	·15
Prison officers	...	...	61·28
Prison servants	...	...	100·46
Gardening	...	...	114·93
Preparing articles for prison use		...	167·28
Jail repairs, alterations, &c.		...	36·26
Manufactures	...	...	515·78

It may be said roughly that one convict out of every two was occupied in the supply of the needs of the jail population, leaving his fellow free for remunerative labor.

Jail manufactures.

58. The general financial results of factory operations will be seen in the following statement :—

—	1891.	1892.	1893.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Total cash earnings	12,800 7 0	4,712 2 0	17,655 15 0
Average earnings per head sentenced to labor	14 1 0	4 5 0	14 9 0
Average earnings per head employed on manufacture	37 15 0	9 14 0	34 3 0

The cash earnings exceeded those in the two previous years put together. This was to some extent due to realizations by the presses at Amraoti in 1893 of outstandings left unrealized at the end of 1892.

Expenditure.

59. With the large increase in jail population already noticed, the gross expenditure in guarding and maintenance necessarily rose. It was Rs. 79,478 in 1893 against Rs. 76,613 in 1892. But owing to better earnings in the factory department, the net cost fell from Rs. 71,285 to Rs. 61,821. The gross average cost per head fell from Rs. 66-9-0 to Rs. 61-15-0, and the net cost from Rs. 61-15-0 to Rs. 48-3-0. Details for three years are given in the following statement :—

Classification of suits.

62. The following is a classified statement of the suits instituted during the past two years :—

Description of suits.	1892. Number of suits.	1892. Percentage of suits.	1893. Number of suits.	1893. Percentage of suits.	Increase or decrease in number of suits, *i.e.*, in columns 2 and 3.	Percentage of increase or decrease.
1. Suits for money or moveable property.	22,521	85·9	23,618	86·9	+1,097	+4·8
Title and other suits.						
2. Suits for immoveable property ...			1,471	5·4		
3. Do. for specific relief			40	·1		
4. Do. to establish right of pre-emption.	3,354	12·8	222	·8	− 225	−6·7
5. Mortgage suits			1,396	5·2		
6. Suits relating to religious and other endowments.	...	...	1	...	+ 1	...
7. Matrimonial suits	83	3	67	2	− 16	−2·39
8. Testamentary suits	...	...	...	...	...	...
9. Other suits not falling under any of the previous heads.	250	1	378	1·4	+ 128	+33·8
Total ..	26,208	100	27,193	100	+ 985	+3·7

The classification in this statement follows that introduced in the new Judicial Statement No. VII in "Title and other suits;" and it is therefore somewhat difficult to institute a comparison with the figures of previous years. The rise of 4·8 per cent. in suits for money and moveable property probably marks increased litigation in the Small Cause Courts, which is the most distinctive feature of the year's statistics.

Of the 1,471 suits for immoveable property, 1,117 or 75·9 per cent. related to fields borne on the Government rent rolls, and of the 222 suits to establish the right of pre-emption and of the 378 included under 9 "Other suits," 477 related likewise to similar property. In Berar the Revenue Courts do not deal with rent suits, which is therefore the principal business of the Civil Courts.

Value and cost of suits disposed of.

63. The following table shows the value and costs of the suits disposed of during the year under report :—

Grades of value.	No. of suits disposed of.	Aggregate value of suits.	Aggregate cost of suits.	Average value of suits.	Average cost of suits.	Percentage of cost to value.

The total value of original suits, of which the money value was capable of determination, was Rs. 32,40,762-15-9 against Rs. 33,22,270-5-0 in 1892, showing a decrease of Rs. 81,507-5-3 or 2·4 per cent., and the average value of suits was Rs. 126-7-7, showing a slight fall from Rs. 126-15-3 in the last year. Of the suits filed 94 per cent. were for value not exceeding Rs. 500 and 70·2 per cent. of the whole litigation for less than Rs. 100. This was very much the same as in last year.

Disposal of suits.

64. Including 3,506 pending suits from 1892 and 3,756 re-admitted, &c., cases, the total number of suits for disposal during the year under report was 34,455, showing an increase of 1,398 suits over the figure of the previous year. Of this total number (34,455) 26,787 were disposed of during the year as shown below;—

66. The average duration of contested cases during the year under report was 196·3 days, and of uncontested cases 56·9 days, against 119·7 and 58·7 respectively in the previous year. Average duration.

67. The total number of applications for execution of decrees was 32,235 against 29,278 in the previous year, showing an increase of 10 per cent., and a corresponding increase in the amount of execution business disposed of. Execution of decrees.

In 3,867 cases satisfaction was obtained in full.
„ 3,429 cases satisfaction was obtained in part.
„ 16,655 cases the applications were wholly infructuous.
„ 3,116 applications were transferred.
„ 5,168 applications were pending at the close of the year.

of protection.

Realizations in money decrees were effected in the following methods during the past year :—

		Rs.	a	p.
Paid in voluntarily	...	11,230	10	7
With the issue of process	...	2,98,829	14	10

Moveable property was attached in 1,569 cases, but sale was actually resorted to in 1,046 cases. Immoveable property was attached in 1,515 cases, and sale carried out in 1,062

There were 57 civil debtors in prison during the year, including two remaining from last year. Of these three were released during the year and three were remaining at its close. The largest number of warrants of arrest were issued in the Amraoti district.

Applications to be declared insolvent were 44 in 1893 as against 36 in 1892, and eight applications were granted against seven in 1892. That the majority of the applicants were persons of small means is shown by the fact that in three cases only was it found necessary to appoint a receiver, and that the amount of creditor's claims admitted during the year amounted to no more than Rs. 3,384-9-7. No penal proceedings were taken under section 355 of the Civil Procedure Code, and one person was declared insolvent and discharged as compared with two persons discharged in 1892.

Processes.

68. The total income on account of court and process fees during the year amounted to Rs. 4,39,462-9-0, including the amount realized in the Judicial Commissioner's Court, as against Rs. 4,12,643-0-0 in the previous year. The rise is, of course, due to the increase in litigation. The process service establishment cost Rs. 65,569-6-2. Processes issued by the Courts during the year under report numbered 281,136, and the fees levied on account of service of these processes amounted to Rs. 1,00,891-10-0. Thus there was a surplus of Rs. 35,322-3-10 at the end of the year.

Appellate work.

69. The following table shows the work of the Appellate Courts during the year :—

Class of appellate tribunals.		Pending from last year	Instituted during the year	Total for disposal.	Disposed of during the year	Pending at the close of the year.
Chief Appellate Court of Districts.	Appeals from decrees.	130	183	313	242	71

	Miscellaneous appeals	35	270	305	221	84
Total ...		788	1,503	2,291	1,582	709

The total number of appeals disposed of by all Courts in 1893 was 1,582, or 21·3 per cent. more than in 1892.

54·7 per cent. of the appeals instituted last year related to rights in land assessed or other immoveable property, and 45·3 per cent. were brought against decrees for money or moveable property. The percentage of appeals relating to rights in land was 62·9 in 1892 and 56·6 in 1891.

The average duration of appeals in all Courts shows a marked improvement, the provincial average having fallen from 245·3 to 128·4 in regular appeals, and from 169·6 to 115 in miscellaneous appeals.

In the Judicial Commissioner's Court the duration has fallen from 269·2 and 162·6 to 169·7 and 110·6 respectively in regular and miscellaneous appeals, and in the Civil and Sessions Judge's Court from 264·6 and 162·6 to 92·7 and 131·9 respectively in regular and miscellaneous appeals.

Courts in the Hyderabad Contingent Stations.

70. In the Courts in the Hyderabad Contingent stations of Aurangabad, Jalna, Mominabad and Hingoli, 516 suits were instituted against 314 in 1892 as shown below :—

Aurangabad	...	...	221
Jalna ...	...	...	179
Mominabad ...	...	...	14
Hingoli ...	...	...	102
			516

Of these 516 suits, 506 were for money or moveable, and 10 were other suits. The number of suits disposed of was 483, and their aggregate value rose from Rs. 17,999-6-3 to Rs. 53,184-9-6, the average value of each suit being Rs. 110-1-9 against Rs. 68-15-5 in the previous year.

There were 270 applications for execution, of which 227 were disposed of as under :—

Completely executed	...	...	76
Partially executed	...	...	44
No execution effected	...	...	107
Pending ...	...	...	43
			270

The total income of these Courts arising from court and process fees exceeded that of the previous year by Rs. 2,261.

SECTION VI.

Registration.

Number of offices.

71. The number of offices was the same as in 1892-93, *viz.*, six District Registrars' and 57 Sub-Registrars' offices.

Registration business.

72. The total number of registrations in 1893-94 amounted to 35,183 against 31,162 in 1892-93, the increase being 12·9 per cent. The largest figure previously recorded was 31,766 in 1889-90. The subjoined statement compares the statistics for the years 1892-93 and 1893-94 :—

III.—*Wills and authorities to adopt other than wills* .	116		.	115		...
Grand total of documents .	31,162	...		35,183	.	.

It will be seen from the foregoing table that the increase in registrations has been general over almost all kinds of documents; and it may be added that the increase has been general over all districts. The aggregate value of property transferred by registered deeds rose from Rs. 92,14,049 to 1,06,78,417 or by 15·9 per cent.

Documents impounded.

73. The number of documents impounded was 117 against 108 in the year previous; of the former 92 were disposed of by Collectors, with the result that the action of registering officers was supported in 77 cases.

Punctuality in registration

74. Out of 35,183 documents 31,611 were registered on the same day they were presented, 1,679 on the day following presentation, and the remaining 1,893 within a week or more after presentation.

Financial results

75. The receipts and expenditure of the department are shown in the following two statements:—

Receipts.

Year.	Fees on registrations in Books I, III and IV.				Receipts other than fees on registrations in Books I, III and IV		Total receipts.

1893-94	29,172 15 5	13,690 9 11	5,634 5 4	48,797 14 6

It will be observed that although both the receipts and expenditure rose, yet the proportion of increase in the former was comparatively larger, and that the net surplus during 1893-94 was Rs. 39,282 against Rs. 28,186 in the previous year.

The balance of receipts over expenditure since the formation of the department now amounts to Rs. 4,07,916-6-4.

SECTION VII.

Municipalities.

Strength and constitution.

76. The area of the Basim Municipality was extended in March 1893 so as to bring within its limits the Civil Station of Basim; and three new muni-

cipalities were established on 1st April 1893, *viz.*, those for Buldana, Yeotmal and the Ellichpur Civil Station. The total number of municipalities during 1893-94 was thus eleven, constituted as shown below :—

Name of municipality.	Population within municipal limits.	Sanctioned strength.			Remarks.

Of the 170 memberships four were vacant at the end of the year, and the remaining 166 were filled by 54 "officials" (not "ex-officio") and 112 "non-officials." Of the members 31 were Europeans and 135 natives.

77. The income of each municipality during 1893-94 was as shown below :— Income.

SECTION VIII.

Local Boards.

Rural Boards Law and number of Boards.

79. The Berar Rural Boards Law having been lately applied to the Wun district, the only tract outside municipal areas in which that law is not now in force is the Melghat taluk of the Ellichpur district. The number of District Boards is six—one for each district, and of Taluk Boards twenty-one—one for each taluk in which the Rural Boards Law is in force.

Area and population of the tract in which the Law is in force.

80. The aggregate area in which the Rural Boards Law is in force is 16,056 square miles, but this includes the small areas of the municipalities referred to in the preceding paragraph. The population of the area in which the Law is in force, *i.e.*, exclusive of Municipal limits, is 2,693,533 souls.

Constitution of Boards.

81. The Taluk Boards consist of members elected by the rate-payers and others qualified to vote and of members nominated by the Commissioner of the province. The District Boards consist of members elected from amongst the members of the Taluk Boards and of members appointed by the Commissioner. At the close of the year under report, *i.e.*, 1893-94, the total number of members of the several Taluk Boards was 378, of whom 250 were elected members and 128 nominated members. Of the total of 378, thirty-three were officials and 345 non-officials. The aggregate number of District Board members was 155—thirty-three nominated and 122 elected. Twenty-four of the members were officials and the rest non-officials.

Election.

82. The total number of Taluk Board vacancies to be filled up amounted to 73, for which there were 157 candidates. The number of persons entitled to vote aggregated 24,784, but of this only 13 per cent. took part in the elections.

83. The following statement furnishes details regarding the income and expenditure of the six District Boards of the province :- - Income and expenditure.

SECTION IX.

Military.

84. There is only one place in the province, *viz.*, Ellichpur, at which a military force is stationed. During the year under report the force consisted of a detachment of the Hyderabad Contingent, having a strength of 128 Artillery and 813 Infantry.

SECTION X.

Marine.

85. There is nothing for record under this head.

CHAPTER IV.

PRODUCTION AND DISTRIBUTION.

SECTION I.

Agriculture.

Area of the province.

86. The following is a comparative statement for the years 1892-93 and 1893-94, showing the area of the province and its distribution under various heads :—

Description of land.	1892-93.	1893-94.			Percentages borne to the grand totals under those columns by the figures.

Grand Total	11,348,483	10,269,217	1,051,227	11,320,444	100	100·	100·

It will be observed that the grand total area shown under 1893-94 (column 5) exceeds that under 1892-93 (column 2) by 1,961 acres. This is due to the rectification of errors in previous returns.

Culturable land.

87. Of the culturable land available for occupation in the province, excluding the Melghat taluk, only 3 per cent. remained unoccupied, and out of it nearly one half belonged to villages leased under the waste land rules. If, however, the lands of khalsa villages only are taken into account, the occupied and unoccupied lands stood in the proportion of 98·7 to 1·3. Details are furnished in the subjoined table :—

	Classification of lands.	Area in acres of culturable assessed land available for cultivation in 1893-94.			Percentage borne by

Area under crops.

88. Of the total land under occupation, *viz.*, 7,766,167 acres (*vide* statement in paragraph 86) 87·4 per cent. was under crops, 61·9 per cent. under "kharif" or rain crops, 25·2 per cent. under "rabi" or winter crops, and 0·3 per cent. under garden and miscellaneous crops; the balance, *i.e.*, 12·6 per cent. was under grass. The following table shows for the five years, 1889-90 to 1893-94, the proportion borne by the area under the principal crops to the total area under crops :—

Name of crops.	Percentage borne by the area under the crops named in column 1 to the total area under crops.

Irrigation.

89. The total area under irrigation during 1893-94 was 48,787 acres (47,171 acres irrigated from wells and 1,616 acres irrigated otherwise than from wells), against 43,466 acres in 1892-93. The principal crops grown by irrigation are chillies, sugar-cane and vegetables.

Outturn of crops.

90. The estimated outturn per acre of seven of the principal crops of the province is given below :—

Year.	Jowari.	Cotton.	Wheat.	Til.	Bajri.	Gram.	Linseed.	Remarks.
	M. s.	M. s.	M. s.	M. s.	M. s.	M. s.	M. s.

Agricultural farms.

91. There are no agricultural farms in the province. Some Egyptian cotton seed received from the Director of Botanical Department of Northern India was sown at Akola, Akot, Yeotmal and Ellichpur, but the experiments proved unsuccessful.

Agricultural stock.

92. The following table compares the agricultural stock of the province for the year under report with that for 1892-93 :—

Year.	Cows and bullocks.	Buffaloes.	Sheep and goats.	Carts.	Ploughs.
1892-93 ...	1,653,946	310,566	503,219	131,323	138,064
1893-94 ...	1,586,112	277,678	540,006	135,570	149,990

Production and Distribution.

Cattle fairs.

93. The chief cattle fair of the province is that held at Wun. The number of cattle brought for sale increased from 11,177 to 11,825, but the sales effected fell from 4,620 to 3,821.

Loans to agriculturists.

94. The total sum advanced to agriculturists was Rs. 43,609—Rs. 39,450 under the Land Improvement Loans Act *plus* Rs. 4,159 under the Agriculturists Loans Act. Of the amount advanced under the former Act, Rs. 8,976 were for wells, Rs. 9,800 for reclamation of lands, Rs. 12,690 for improvement of wells and fields, and Rs. 7,984 for removing stones and raising bunds to nullas, &c.

Cattle disease.

95. The number of attacks during the year under report amounted to 16,859 of which 5,217 were cases of anthrax, 2,440 of rinderpest, and 4,347 of hoof and mouth disease. Of the total number attacked 56 per cent. recovered and 44 per cent. died.

Horse-breeding.

96. One of the three stallions in the province died in August 1893. The total number of mares covered during 1893-94 was 100. Reliable information regarding the stock produced by the Government stallions is not available.

SECTION II.

Weather and Crops.

Rainfall.

97. The average rainfall over the Hyderabad Assigned Districts during 1893-94 amounted to 36·93 inches. This amount is considerably lower than the average of the preceding year, which came to 59·31 inches, but compared with the averages of 1891-92 and 1890-91 of 39·29 and 40·26 inches respectively, or the average for the five years preceding 1890-91 of 39·62, the decline is not great. The rainfall of 1892-93 was clearly abnormal. As regards the distribution of the rainfall by months, the record is as follows :—

Month.	1893-94. Inches.	Quinquennial average. Inches.
April and May ...	2·29	1·4
June	6·32	7·61
July	5·75	12·35
August	11·90	7·7
September	4·24	3·99
October	3·16	4·49
November to March ...	3·27	3·7
Total ...	36·93	41·24

As to the distribution of rainfall by districts, in the Amraoti district the fall though slightly short was seasonable, and the crops did not suffer; tanks, however, did not fill: in the Akola district the fall was not short, but unseasonable to some degree, affecting adversely both the kharif and rabi crops; in the Ellichpur district the fall is said to have been fairly seasonable, though crops suffered from its being short; in the Bullana district though the fall was short, it was seasonable, and crops did not suffer; in the Wun district the fall was excessive in October and deficient in November, with the result that both the kharif and rabi crops were damaged throughout the district, the Wun and Kelapur taluks losing the most; in the Basim district the fall though short is said to have been unseasonable in parts of the district only, and the crops slightly suffered.

Prices of food grains.

98. Wheat for the province averaged per rupee 14 seers and 8 chataks against 12 seers and 5 chataks in the preceding year, and 12 seers and 12 chataks in 1891-92. Gram averaged 16 seers and 5 chataks per rupee against 13 seers and 14 chataks in 1892-93 and 15 seers in 1891-92. Jowari per rupee was 19 seers and 4 chataks as against 17 seers 6 chataks in 1892-93, and 21 seers and 13 chataks in 1891-92. Rice 8 seers and 10 chataks per rupee, the same as in 1891-92, but 5 chataks more than in 1892-93.

Wages of labour.

99 The provincial average wages of skilled and unskilled labour were the same as in the preceding year, *viz.*, Rs. 0-12-3 and Rs. 0-3-11 per diem respectively. The hire of a cart and pair of bullocks rose from Rs. 0-14-0 to Rs. 0-14-5, and the hire of a pair of bullocks was Rs. 0-10-11 against Rs. 0-10-8 in 1892-93.

SECTION IV.

Forests.

Staff.

102. The office of Conservator was held throughout the year under report (*i.e.*, the forest year 1893-94 which ended on 30th June 1894) by Mr. C. Bagshawe, and the divisional charges—each of the six districts forms a forest division—either by Deputy Assistant or Extra Assistant Conservators, and in one case by a Forest Ranger for about six months of the year. Mr. E. M. Coventry, Assistant Conservator, left Berar on transfer to the Punjab in November 1893, and in the same month Mr. R. M. Williamson, Assistant Conservator, joined in Berar from the Cooper's Hill College.

Forest area.

103. The following statement shows the alterations in the forest area of the province :—

Class of forest.	Area on 1st July 1893.	On 30th June 1894.	
		Area in square miles.	Percentage borne by the forest area in preceding column to the total area of Berar, *viz.*, 17,735 square miles.
	Sq. miles.		
1. State-forests of class A primarily reserved for the production of timber and fuel.	1,522	1,480	8·3
2. State-forests of class B primarily reserved for fodder grass	63	64	0·4
3. State-forests of class C—			
(*a*) Division I primarily reserved for pasture, but in which grazing can be regulated and is paid for.	1,598	1,810	10·3
(*b*) Division II primarily reserved for pasture and in which during the current land settlement Government has conceded grazing free of any due.		554	3·0
State-forests of class D—a temporary class to be eventually absorbed in one or other of the preceding classes or to be restored to the ordinary control of the revenue authorities.	1,250	249	1·4
Grand Total ...	4,233	4,157	23·4

The changes are mainly due to the re-classification of State-forests of class D. The net decrease of 76 (*i.e.*, 4,233 *minus* 4,157) square miles is thus accounted for :—

	Square miles.
(1) Loss on recalculation of areas	10
(2) Jagir and leased villages in the Melghat wrongly shown in 1892-93 as State-forests of class D	39
(3) State-forests disforested for cultivation and other purposes (36 square miles) *minus* land newly constituted forest (9 square miles)	27
Total ...	76

Boundaries.

104. The boundaries of State-forests in the Hyderabad Assigned Districts consist of either cleared lines with numbered pillars or the field boundary marks of the

land revenue settlement department. With the exception of 19 miles which represent the length of portions of boundaries of certain class A forests in the Wun district—all the other forests lands have been demarcated. The total expenditure incurred on demarcation during the year under report was Rs. 3,849 on new works *plus* Rs. 771 on repairs. The following shows the state of the boundaries at the end of the year under report:—

	Miles.	F.B.M. No.	Length of close line with numbered pillars. Miles.	Field boundary marks. No.
(1) Length of previously existing boundaries—				
(*a*) Repaired ..	407	9,429		
(*b*) Not repaired ...	435	97,748		
			842	107,177
(2) Length of boundaries artificially demarcated during the year.			239	20,469
(3) Total of (1) & (2), *i.e.*, total length of artificially marked boundaries at the close of the year.			1,081	127,646
(4) Length of boundaries not demarcated at the close of the year.			19	...
(5) Length of natural boundaries not requiring artificial marks.			179	..
(6) Total of (3), (4) & (5), *i.e.*, the total length of boundaries at the close of the year.			1,279	127,646

Breaches of Forest Law.

105. The total cases of breaches of law amounted to 841; of these 7·7 per cent. remained undetected, 78·5 per cent. which were petty cases were compounded, and the rest, *i.e.*, 13·8 per cent. which were of a serious nature were taken before criminal courts. The corresponding percentages for the previous year were as follows:—undetected 5·5, compounded 61·9, and taken before Magistrates 32·6.

Fire protection.

106. The area attempted to be protected during the year under report was nearly 1,389 square miles, *i.e.*, 150 square miles in excess of the area under protection during the previous year. Out of this area 1,350 square miles were successfully protected, and the area of failures was 39 square miles, or 2·8 per cent. of the area under protection, the corresponding percentage for 1892-93 being 3·7. The approximate cost per square mile of the area attempted to be protected was Rs. 8-9-7 against Rs. 7-3-2 in 1892-93, the rise being due to the length of new lines which had to be cleared.

Working plans.

107. The following extract from the provincial forest report for 1893-94 shows the progress of working plans:—

	A.	B.	C.
"Areas for which working plans were complete at beginning of year	12	...	915
Do. do. have been completed during the year	19	2	4
Do. do. are in hand	1,009	4	907
Areas not yet dealt with including 249 sq. m. of 'D' with the 'C' State-forest	448	58	787
	1,488	64	2,613

"The work in 'A' timber reserves has made considerable progress save in Wun, where the valuation of the forest in the leased (izara) villages has absorbed all spare time and men, and in Buldana where the work was stopped owing to Mr. Bhukan's deputation to the Melghat.

"The management of 'B' fodder reserves is so simple that working plans have not been pushed on for these areas save in the way of experiments as to the best method of working.

"Plans for 'C' forests generally have been delayed owing to the non-completion of the 1" maps, but very good progress has been made in Amraoti and Ellichpur, where old maps are available, and in these divisions the plans are now nearly complete. The main 'C' areas as yet untouched are in Basim, where the forest area classification is still in hand.

"In the areas under working plans, or simple plans of operations sanctioned locally, the provisions have been duly carried out.

"The preparation of working plans in Berar has hitherto been slow, as it has not been possible to depute an officer specially for this work. During 1894-95 it will be possible to arrange for a special officer."

Grazing.

108. Of the aggregate area of the forests of classes A and B, *viz.*, 1,544 square miles (*vide* statement in paragraph 103 *ante*) 1,200 square miles were closed to grazing, 248 square miles (96 miles for rains and 152 for whole year) were open save to browsers, and 96 square miles were open without restriction. Of the C and D forests only 6 square miles were closed to grazing and the remaining area (*i.e.*, 2,607 square miles) was open without restriction. The total amount of grazing fees was Rs. 1,75,961, the rate per acre being one anna and six pies.

The grazing rules were revised during the year under report with the view of introducing fairly uniform rates all over the province, but as in several cases the change did not come into effect during the year, another year must elapse before the effect of the new rates can be seen.

Forest growth.

109. The following extract is taken from the forest report of the province for 1893-94:—

"Taking the 'A' forests in South Berar, improvement is visible in every forest protected from fire and grazing, but the spread of teak is not marked as it is in the Melghat; it should, however, be remembered that in the Melghat a compact block of 600 square miles of country was reserved, including all varieties of soil at different elevations, while as a rule in South Berar waste land was only available for reservation in the low hills, where the soil is poor and the areas of sheet rock considerable. In the Melghat the more the forest growth is examined and watched the more striking is the general improvement in growth and the wonderful spread of teak and bamboos, especially the former.

"In the 'B' forests, we are starting experiments to test the effect of limited grazing on grass lands, of firing them after the crop is cut, and of protecting them as heretofore from both fire and cattle. The B forests, as a rule, are in good order, though in some areas coarse grasses and thorns are making way to the exclusion of the finer fodder grasses.

"In 'C' forests the forest growth is not in a satisfactory condition, and the areas are overgrazed and overcut, but then it must be remembered these 2,600 square miles include nearly all the grazing land in Berar."

Artificial reproduction.

110. The following extract is taken from the forest report of the province for 1893-94:—

"During the year 1,089 acres have been operated on at a cost of Rs. 966 in Amraoti, Akola, Buldana, Basim and Wun, while Rs. 260 were spent on nurseries for future planting in Wun, and Rs. 315 in date plantations and petty planting operations in Ellichpur. In Amraoti 163 acres of failures in Chirodi have been written off, and at the close of the year two acres of fully stocked date plantation were handed over to the Ellichpur town for management. Except in the planting of babul, 186 acres, planting work generally in Berar was not successful, and in no division is it probable that the area sown in the rains of 1893 will be half stocked in December 1894."

Communications and buildings.

111. The total amount spent on forests works during 1893-94 was Rs. 37,708 against Rs. 38,724 in 1892-93. Of the former amount Rs. 22,225 were spent on roads (Rs 14,530 on new roads and Rs. 7,695 on repairs), Rs. 13,302 on buildings (Rs. 8,922 on new buildings and Rs. 4,380 on repairs), Rs. 1,296 on five new wells, and the balance on miscellaneous works.

Outturn of forest produce.

112. The outturn of forest produce for the forest years 1892-93 and 1893-94 compares as follows:—

SECTION V.

Mines and Quarries.

114. There is nothing to record under this head.

SECTION VI.

Manufactures.

115. The following is extracted from the trade report of the province for the year 1893-94:—

"The manufactures of the province, as given in the previous reports, are chiefly confined to twist and yarn, coarse cotton cloth and petty unskilled handicrafts. Silk weaving is carried on at Kholapur in the Amraoti district, where pitambars are prepared; cotton carpets are woven at Akot and Ellichpur; saris, turbans, khadis and blankets are manufactured in several parts of the province; khadis of different textures and colors are woven at Ellichpur and Wun. Nut crackers are made at Deulghat in the Buldana district.

"Besides the cotton weaving mill at Badnera and two oil-mills, one at Amraoti and the other at Shegaon, the cotton presses and ginning factories worked by steam power are by far the most important industries in the province. The mill at Badnera produced 1,631,881 lbs. of twist and yarn, and 914,336 lbs. of cloth, against 995,862 lbs. and 912,217 lbs. respectively in the preceding year, showing an increase of 636,019 lbs. under the former and 2,119 lbs. under the latter. The number of persons employed in the mill during the year under report was 770 as in the previous year. Besides meeting local wants, the produce was exported to Delhi, Agra, and Central Provinces.

"*Oil-mills.*—The oil-mill at Amraoti turned out 12,455 gallons of oil and 1,088 tons of oil cakes, while the Shegaon oil-mill extracted 51,832 gallons of oil and 469 tons of oil cakes.

"There are altogether 36 cotton presses and 63 ginning factories, as against 28 and 58 respectively of 1892-93, under the management of private firms and joint-stock companies."

SECTION VII.

Trade.

Rail-borne Trade.

116. During the year under report, *i.e.*, 1893-94, no change took place in the arrangements for the registration of rail-borne trade; the annual returns were

System of registration.

as usual compiled in the office of the Examiner of Guaranteed Railway Accounts, Bombay, and furnished by him.

Total trade

117. The total traffic of the year under report is contrasted with that of the previous year, and the average of the five previous years in the following statement :—

[Figures in thousands of maunds and rupees.]

Description of trade.	Quantity in maunds.			Value in rupees.		
	Average of five years ending 1892-93	1892-93.	1893-94.	Average of five years ending 1892-93.	1892-93.	1893-94.

Total ...	7,398	6,881	7,813	59,164	54,307	68,405

The volume of trade is 13·5 per cent. above that of last year, and 5·6 per cent. above the average of the past five years. The increase in value is nearly 26 per cent. above last year's figures, and 15·6 per cent. above the average for the five previous years. The total trade is made up of 51·9 per cent. of imports and 48·1 per cent. of exports. The increase in volume is chiefly due to the increase in imports, which are 27·5 per cent. over last year's figures and 25·9 per cent. over the average, while the exports are only 1·6 per cent. above last year and 10 per cent. below the quinquennial average ; but the value of trade has increased in every case ; even the exports, although 10 per cent. below the five years' average in quantity, are 20·2 per cent. above that average in value.

The increase of imports in grain and pulses, coal and coke, oils and provisions account for the rise under this head, while under exports cotton raw has increased in quantity over last year's figures, and in value over both last year and the five years' average. The export of oil-seeds has also increased, but the export trade of grain and pulses has fallen enormously and kept the total below the quinquennial average in quantity, though as mentioned above the value is higher.

External trade

118. The following table shows the total import and export trade of Berar with the adjoining provinces during the year under report as compared with that of the preceding year and the average for the past five years :—

As noted in paragraph 145 of the Administration report for 1892-93, the trade of Berar is almost entirely confined to the Central Provinces and Bombay. The imports from Bombay into Berar amount to 34·7 per cent., while the exports from Berar to Bombay are 89·7 per cent. of the whole. The imports from the Central Provinces are 50·9 per cent., and the exports from Berar to those provinces are 4·1 per cent. of the whole. The exports from Berar to the Central Provinces have fallen off considerably, while the imports are still above those from Bombay. The trade with Bengal continues to increase, the reason for which was given last year (paragraph 145 cited) as the opening up of direct railway communication. The imports from the North-Western Provinces and Oudh have fallen off, while the exports they receive from Berar have increased considerably.

As shown in paragraph 117 the increase in imports has been considerable both in quantity and value. The large rise under coal and coke is due to the increase in the number of cotton presses and ginning factories, and the better outturn of cotton, while the considerable falling off under raw cotton is owing to the better cotton crop within the province. The imports under grain and pulse are just double the figure for last year; this is owing to the enormous increase in the imports of wheat from both Bombay and the Central Provinces. The imports of rice were above those of last year, as were also those of jowari and bajra. The increase under "oils" is due to increase in the importation of kero-

sine oil; the rise in imports of "stone and lime" may be traced to Bombay, Central Provinces and the Nizam's territory. The variations in the other articles of trade are small and do not call for explanation.

Exports

120. The following table shows the exports of the province:—

The principal variations may be thus explained:—

Cotton, raw.—As stated in paragraph 146 of the Administration report for 1893-94, the unfavorable season of 1892-93 had a marked effect on the cotton crop, and caused a large decrease in the exports; the year under report has been comparatively a good one, and the export in consequence more nearly approaches the average for the past five years.

Grain and pulse.—The enormous decrease in the exports here appears due mostly to the depression of trade in wheat, consequent on the cheapness of that commodity in Europe. In 1892-93, Berar exported to the Port of Bombay 392,323 maunds of wheat, while during the year under report only 34,671 maunds found their way there. The exports to the Bombay Presidency and the Central Provinces have fallen off in a similar manner.

Oil-seeds.—An appreciable rise is apparent here, which is due to an increase of 649,000 maunds of linseed in the exports to the Port of Bombay, while the exports of linseed to Calcutta rise from 533 maunds in 1892-93 to 4,530 maunds in the year under report. The exports of linseed from the sea-ports this year has risen in a remarkable way. The export of rape and mustard to the Port of Bombay has risen from 6,383 maunds last year to 23,061 maunds for the present year. The export of castor oil-seeds to the Bombay Port has similarly greatly increased,

General remarks.

121. Generally then the trade of the year shows a satisfactory development and increase, and is chiefly remarkable for the increase of imports, especially of food-grains, to supply the deficiency caused by last year's bad harvest.

Road-borne Trade.

System of registration.

122. It was stated in paragraph 142 of the Administration Report for 1892-93 that "nakas" (*i.e.*, registering stations) had been established at ten selected places on the borders of the Central Provinces for the registration of road-borne trade. On the 1st April 1893, the nakas were moved to a second batch of 10 villages on the same borders. In 1892-93 their range extended along the borders of Wun district; they have now been moved northwards, and extend along the Wardha river from Borgaon to Rawala in the Amraoti district. Since the 1st April 1894, the nakas have been posted on the western borders of the province towards Khandesh and His Highness the Nizam's territory. No change has been made in the arrangements for registration.

Imports and exports.

123. The total imports amounted to 446,942 maunds, and the exports to 204,044 maunds. The trade consisted chiefly of the articles noted below :—

	Imports (maunds).	Exports (maunds).
Cotton	77,936	29,166
Grain and pulse	81,960	41,676
Oil-seeds	44,381	5,677
Sugar	75,690	7,919

The largest import trade under cotton was registered at Sidodi, a village situated about 12 miles from the cotton market at Dhamangaon. In the exports of grain and pulse, the principal item was wheat, which contributed 16,373 maunds. Linseed is again the most important among the imports under "oil-seeds" and amounts to 34,452 maunds. The imports of sugar 75,690 maunds, comprise 75,104 maunds of unrefined sugar or "jaggery."

With regard to the sites selected for registration, the most important was that at Sidodi on account of its proximity to the railway station at Dhamangaon; next in importance was Hiwarkhed, from whence there is a good metalled road to Amraoti.

General.

Expenditure.

124. The total expenditure for the registration of the rail and road-borne trade of the Hyderabad Assigned Districts during the year under report amounts to Rs. 5,657-14-0 as shown below :—

	Rs.	a.	p
Rail-borne from 1st April 1893 to 31st March 1894 ...	720	0	0
Road-borne do. do. do. ...	4,937	14	0
Total ...	5,657	14	0

As against a total of Rs. 5,129-10-6 for the previous year, the expenditure for the rail-borne trade shows no difference. The expenditure for road-borne trade has increased by Rs. 528-3-6: this is due to the fact that during 1892-93, the menial establishment, consisting of 12 peons, were employed for a portion of the year only.

Provincial contract scheme.

137. The year under review is the fifteenth in which the system has been in force of assigning a certain percentage of the provincial revenues to the Resident for Civil, Public Works, and Railway expenditure. The proportion for the first four years was 54 per cent. and thereafter up to 1886-87, 52 per cent. This was subsequently reduced to 50 per cent. for a period of five years commencing from the year 1887-88, but as this percentage was found insufficient, the Government of India, on the representation of the Resident, increased the assignment of revenue from 50 to 51 per cent. with effect from 1889-90 to 1891-92—*vide* Department of Finance and Commerce Resolution No. 4347, dated 26th August 1889. On further consideration, and with reference to the transactions of previous years, the percentage was fixed at 50 per cent. for five years, beginning with the year 1892-93—*vide* Government of India Financial Department No. 4391-A, dated 27th October 1892.

The balance at credit of the Resident under the new contract scheme on the 31st March 1894 was Rs. 6,93,818 as shown below:—

The land revenue demand has not been fully realized, and the receipts for 1893-94 are therefore exceptionally depressed. The increase as compared with the actuals of 1892-93 is, however, chiefly due to the realization of a portion of collections of that year in 1893-94.

Total ...	1,82,605	1,73,154	1,399	10,850

The revenue under this head represents the duty levied by the Opium Agent at Malwa on opium imported into Berar, also the recovery in Berar of certain small sums on account of confiscations and fines. The falling-off was due to the quantity of opium imported in 1893-94 being less than that imported in 1892-93.

The increase, as compared with the actuals of 1892-93, is not considerable, and calls for no remarks. The decrease, as compared with the estimate, was chiefly in the Wun district, apparently due to the bids for sale of country spirits having fallen short owing to the bad harvest.

V. Miscellaneous	1,883	6,482	4,599	...
Total ...	4,31,017	4,82,802	52,481	696

The forest revenue in 1892-93 was exceptionally low for the reasons stated in that year's report. The increase in 1893-94, as compared with the actuals of the previous year, therefore calls for no special remark. The decrease, as compared with the estimate, is chiefly in the Basim division, stated to be due to value of the goles on hand having been estimated at a much higher rate than they were realized, also owing to slack demand.

The increase in 1893-94 as compared with the actuals of the previous year is due to payment in 1893-94 from the district fund to credit of the provincial revenues of the capitalized value of District Board pensions. The decrease as compared with the estimate is due to the provision of Rs. 11,000, made for the contribution from the district fund to provincial revenues on account of pensions of the District Board employés for service rendered on and after the 1st April 1893, expected to be adjusted in the accounts for 1893-94, not having been adjusted in the accounts of that year, the subject being then under reference.

The increase in both cases is chiefly under the head "Gain by exchange on local transactions," also under certain minor heads, local, and is due in the former case to the prevalence of favourable rates of exchange during the year, and in the latter case to the treatment of the receipts of the town and bazar cess

funds of the Wun district as receipts of the District Fund, which is an Incorporated Local Fund.

H.—Railways.

XXVI.—*State Railways.*

Below the actuals of 1892-93	...	... „	12,213

The exceptionally large decrease in 1893-94 as compared with the actuals of 1892-93 is due to an account adjustment made during the latter year in connection with the Buldana sadar station and town water-works. The improvement over the estimate is due chiefly to the sale of old buildings, the rent of staff quarters, and receipts from sale of old materials, &c., having been underestimated.

L.—Receipts by Military Department.

XXXIII.—*Army.*

Below the estimate		... Rs.	22,240
Below the actuals of 1892-93 ...		... „	3,503

The receipts under this head are of a fluctuating nature. The decrease as compared with the estimate is chiefly under the head 10. Ordnance, &c., due to the postponement of the re-armament of the Cavalry Regiments, Hyderabad Contingent, with Martini Henri carbines and the expected return of snider carbines into store consequently not having been effected. The decrease as compared with the actuals of the previous year is chiefly under the head 14. Miscellaneous services, due to the refunds of over-payments in previous years credited in the accounts of 1892-93 being considerably large in amount.

ADJUSTING HEADS.

Credit Adjustments.

Provincial.

Contributions from Local to Provincial.

Adjusting heads.

139. These represent chiefly contributions towards the cost of executing certain public works of provincial importance, in which local funds are interested. The transactions are necessarily of a very fluctuating nature, being dependent upon the public works undertaken. There must of necessity be considerable variations between the accounts of the different years. The increase in the actuals of 1893-94 is due to a further contribution, in addition to the amount originally provided in the budget, having been paid by the Akola District Board on account of Akola water-works.

Local.

Contributions from Provincial to Local.

The principal item under this head is the provincial contribution towards the cost of primary education. The variation in the actuals of the two years calls for no explanation.

DISBURSEMENTS.

Net increase ..							3,96,368	

Under civil expenditure the principal increases and the heads under which they occur are as follows :—

Heads of account.	Rs.	Remarks.
1. Refunds and Drawbacks	3,054	Chiefly occurs under land revenue and stamp refunds.
3. Land Revenue	... 88,580	Due chiefly to larger payments made to district and village officers, and also to payments of exchange compensation allowance to European officers.
7. Excise	... 12,385	In the year 1892-93 the introduction of the sadar distillery system into the Ellichpur district was only commenced. It has been completed in 1893-94, and hence the increase.
11. Forest	... 25,019	Occurs under A. Conservancy and Works, and B. Establishments, due in the former case to larger expenditure against the head "Timber and other produce removed from the forests by consumers or purchasers," also against the head "Compensation for land and rights," and in the latter case under salaries.
18. General Administration	... 17,144	Due chiefly to payment of exchange compensation allowance and to the share of the Local Boards establishment of the Wun district chargeable to the town and bazar cess funds having for the first time from 1893-94 been treated as a part of district fund charge.
19-B. Law and Justice—Jails.	12,176	Chiefly occurs under (1) warders and turnkeys, (2) cost of rations, and (3) convict charges at Port Blair. As regards (1) due to the introduction of the jail warder guard system ; as regards(2) to the increase of the jail population and the higher prices prevailing for food grains ; and as regards (3) apparently due to the increase in the number of convicts.
22. Education	... 14,115	Due chiefly (1) to the absence of the permanent Director on leave, his leave allowances and the pay of his *locum tenens* having been debited to the same head, (2) to the increase in the purchase of books, and (3) to the inclusion of the charges of the taluka fee fund of the Wun district from 1893-94, which were formerly kept out of Government accounts.

Heads of Account.	Rs.	Remarks.
24. Medical ...	6,513	Due chiefly (1) to payment of exchange compensation allowance; (2) to increase in the cost of Europe medicines and instruments; and (3) to the inclusion of the Local Fund expenditure of the Wun district which was formerly met from Excluded Local Funds.
26. Scientific and other Minor Departments ...	8,413	Chiefly under the heads veterinary and stallion charges and botanical and public gardens charges (local), due in the former case to the appointment of an officer as Superintendent, Veterinary Department, and in the latter to the introduction of the arboriculture scheme for planting trees.
29. Superannuation Allowances and Pensions ...	47,270	Due chiefly to the capitalization of the value of District Board pensions, which has been paid to the credit of Provincial Funds.
30. Stationery and Printing...	11,165	Chiefly occurs under Government Presses, Provincial and Local.
32. Miscellaneous' ...	12,631	Chiefly occurs under (1) charges for remittance of treasure, (2) loss by exchange on local transactions, and (3) petty establishments (local), and is due as regards (1) to larger remittances of copper, as regards (2) to the fluctuating nature of the transactions, and as regards (3) to the treatment of the District Boards charges of Wun district as Incorporated Local Fund expenditure from 1893-94.
44. Military Works ...	15,029	Chiefly occurs under original works and establishment charges.
Adjusting Heads—Debit Adjustments, Local.		
Contributions from Local to Provincial	11,200	See remarks under the corresponding receipt head.

Grant 1.—Army and Garrison Staff. Increase Rs. 6,035.

The difference is chiefly under salary of the Brigadier-General Commanding Hyderabad Contingent and leave allowances of the Assistant Adjutant General, Hyderabad Contingent, special expenditure on account of reconnaissance party, maps, &c., moreover exchange compensation allowance has been incurred during 1893-94.

Grant 3.—Regimental Pay, Allowances and Charges. Increase Rs. 13,893.

The increase under this grant is chiefly under exchange compensation allowance to regimental officers. During 1892-93 reliefs of Infantry regiments had taken place, when hutting money and marching batta were drawn for the troops, while in 1893-94 no such expenditure was incurred, hence the small difference.

Grant 4.—Commissarial Establishment. Increase Rs. 1,527.

The increase under this grant is chiefly under regimental transport branch, and is due to the purchase of new gear, &c., for transport ponies during 1893-94.

Grant 5.—Stud and Remount Establishment. Decrease Rs. 2,356.

During 1893-94 a smaller number of remounts than in the year 1892-93 was purchased.

Grant 6.—Clothing Establishment. Increase Rs. 19,050.

During 1893-94 the Artillery of the Hyderabad Contingent received biennial clothing and an Infantry regiment of the Hyderabad Contingent received compensation in lieu of triennial clothing due on 1st April 1894, hence the increase.

Grant 9.—Medical Establishment.

The increase of Rs. 2,577 is principally under medical supplies, and is due to a larger supply of medical stores than in previous year having been obtained during 1893-94 for hospitals of the Hyderabad Contingent, under sanction of the Principal Medical Officer, Hyderabad Contingent.

Grant 10.—Ordnance Establishment. Increase Rs. 78,050.

The increase of Rs. 78,050 under Ordnance Establishment and Stores is attributable to the supply of new carbines (Martini-Henri) to Lancers Regiments of the Hyderabad Contingent during 1893-94.

Grant 13.—Sea Transport Charges. Increase Rs. 2,275.

The increase under this grant occurs under "Passage money on account of officers to and from Europe" and is due to a larger number of officers than in the previous year who are entitled to passage money having proceeded to Europe on medical certificate during 1893-94.

Grant 14.—Miscellaneous Services. Decrease Rs. 8,800.

The decrease under this grant occurs under Camp of Exercise. During 1892-93 a sum of Rs. 12,064 was incurred under this head, whereas in 1893-94 only Rs. 1,160. An expenditure of Rs. 1,039 has been incurred during 1893-94 under compensation for losses with the special sanction of the Government of India.

Grant 16.—Rewards for Military Services. Increase Rs. 1,185.

The excess expenditure is on account of certain native officers admitted to Order of British India during 1893-94.

Grant 17.—Military Pensions to Europeans. Increase Rs. 1,99,352.

The increase under this grant is due to the adjustment of arrears of proportion of retired allowances of certain officers who had served in the Hyderabad Contingent under Government of India Military Department letter No. 1074-F., dated the 9th April 1894, to the address of the Controller of Military Accounts, Eastern Circle, Bengal.

Grant 18.—Military Pensions to Natives. Increase Rs. 3,755.

The excess expenditure is due to the net increase to the pension list.

Grant 19.—Widows' Pensions. Decrease Rs. 3,631.

The decrease is chiefly due to a certain sum on account of arrears of pension paid to certain widows from the (late) Lord Clive's Fund having been debited to Bombay Presidency under Government of India Military Department letter No. 3866-F., dated 17th October 1893.

Revenue and Finance other than Provincial.

CHAPTER VI.

VITAL STATISTICS AND MEDICAL RELIEF.

SECTION I.

Births and Deaths.

System of registration.

148. Registration of births and deaths was first undertaken in Berar in 1868. The system then introduced was modified in 1876, and again in 1883. A good deal of attention has been given to the subject, and though there are many difficulties to contend with, both local to the province and personal to the people, which more or less affect the accuracy of the returns, still, greater efficiency is annually being obtained; on the whole, the system in force works well and effectively.

Births—provincial figures.

149. The total number of births registered during the year under report, *i.e.*, 1893 was 111,924, or 1,716 less than in the previous year, but 121 above the mean of the last quinquennium. The recorded births exceeded the deaths by 18,973. The birth-rate to population was in the ratio of 39·3 per 1,000 as compared with 39·9 in the previous year, and 39·3, the mean of the previous five years.

Births according to districts.

150. In districts, the birth-rates varied considerably. Ellichpur, Akola, and Buldana come close together with over 43 per 1,000; then Amraoti, Basim, and Wun, with considerable difference between them, ranging from 39·3 at Amraoti to 35·9 and 29·6 at Basim and Wun. It is believed that the Wun district shows such a low birth-rate owing to defective registration.

Births according to sex.

151. Of the total live-births registered during the year, 57,749 were of males and 54,175 of females, *i.e.* in the proportion of 106·6 males to every 100 females as compared with 105·9, the average of the previous five years. The relative proportion of the sexes at birth corresponds very closely with the proportion of males to females in the general population, for the census report shows that to every 100 women living the proportionate number of males is 106·1.

Still-births.

152. The number of still-births registered amounted to 5,021 as compared with 4,774 in the previous year. Of these 2,832 were males and 2,189 females, or 129·3 still male births to every 100 still female births. The proportion of still to live births was 4·4 per cent. as compared with 4·1, the mean of the previous five years.

Deaths—provincial figures.

153. The total number of deaths registered in the province during the year under report was 92,951, or 10,827 in excess of the previous year. This increase in mortality occurred chiefly under fevers and bowel-complaints, which, together, account for an increase of 7,459 deaths. Influenza was also present in an epidemic form during the latter part of the year, especially in the southern part of the province. The death-rate in proportion to population was 32·6 per 1,000 as compared with 28·8 in 1892 and 36·3, the mean of the previous decade.

Death-rate according to districts.

154. According to districts the death-rate was highest, *i.e.*, 39·9 per 1,000 in the Ellichpur district, and lowest, *i.e.*, 27·4, in the Wun district. For the four districts of Akola, Amraoti, Buldana and Basim the rates were 38·1, 32·8, 30·8 and 28·3 respectively.

Deaths according to sex.

155. Of the total recorded deaths 49,266 were deaths of males and 43,685 deaths of females. The proportion of male deaths per 1,000 of the male population was 33·6, and of female deaths 31·6. In every district male deaths exceeded those of females, the proportion for the province being 112·7 deaths amongst males to every 100 deaths amongst females, ranging from 120·8 in the Basim district to 107·8 in the Ellichpur district. The registered male death-rate was 33·6, or 2 per 1,000 greater than that recorded amongst females, as compared with 1·6, the mean of previous five years.

Death-rate according to age.

156. The following table shows the proportional mortality at different ages per 1,000 of population. Of the total mortality 46·7 per cent. occurred in infants and children under five :—

Age.	1893.	1892.	1891.
At all ages	32·6	28·8	40·6
Under 5 years	15·3	14·1	21·3

Deaths according to class.

157. The number of deaths in each class and their ratio per 1,000 are shown below :—

Class.	Population	1893		1892.	
		Deaths registered	Deaths per 1,000 of population	Deaths registered.	Deaths per 1,000 of population.

Native Christians ...	492	23	46·7	20	40·6

Causes of death.

158. The following table compares the mortality figures for the year classified under various causes of death with those for 1892 and the mean of the preceding ten years. It will be seen that as compared with the previous year there was an increase in mortality, chiefly under fevers and bowel-complaints and under fevers and injuries, as contrasted with the decennial mean:—

SECTION II.

Immigration and Emigration.

159. There are no means available for obtaining accurate statistics relating to immigration and emigration.

SECTION III.

Medical Relief.

Civil Hospitals.

Number of hospitals.

160. The total number of hospitals during the year under report, *i. e.*, 1893, was the same as in 1892, *viz.*, eight, and all of these are maintained wholly by the State.

Patients treated.

161. The following statement shows the extent to which medical relief was granted at the civil hospitals :—

Year.	In-door patients.						Out-door patients.		Total of in-door and out-door patients.
	No. treated.	No cured.	Deaths.	Percentage of deaths to total treated	No. of beds available	Average daily attendance.	No. treated.	Average daily attendance.

1893 ...	2,071	1,847	44	2·12	135	70·61	48,746	260·6	50,817

Classification of patients.

162. Of the total number of patients treated in the year under report 1,984 were Europeans and Eurasians, 29,113 Hindus, 16,308 Mahomedans, and 3,462 belonged to other classes. According to sex, 28,804 were men, 6,768 women, and 15,245 children.

Diseases treated.

163. The chief diseases treated during 1893 as compared with the previous year were as follows :—

	1893.	1892.
Malarial fevers	13,070	10,099
Worms	4,149	3,736
Eye diseases	3,756	3,018
Ulcers	3,440	3,512
Skin diseases	2,751	2,686
Dyspepsia	1,394	1,534
Ear diseases	1,185	1,206
Rheumatism	1,154	1,222
Diarrhœa	967	1,178
Dysentery	858	895
Spleen diseases	334	239
Scurvy	135	33

Surgical operations.

164. The number of surgical operations performed was 179 major and 3,126 minor, against 174 and 2,253 respectively in 1892. As of the major operations of 1892, four cases had remained for treatment during 1893; the total number of patients for treatment on whom major operations had been performed came to 183. Of this latter 162 were cured, 10 relieved, 2 discharged otherwise, and 5 proved fatal, leaving 4 cases under treatment at the end of the year.

Income and expenditure.

165. The income and expenditure of the hospitals for the year under report are shown below contrasted with those for the previous year:—

* These balances do not appear in the returns for succeeding years as they have to be remitted to the treasury and are absorbed in the treasury accounts.

All expenditure is paid by the State, and the total expenditure was less than that of the previous year by Rs. 26,627-10-0 owing to the salaries of Civil Surgeons having been excluded from the returns for 1893 in accordance with the orders of the Government of India.

Charitable Dispensaries.

No. of dispensaries.

166. Two new dispensaries were opened during 1893—one at Badnera in the Amraoti district and the other at Sirpur in the Basim district. The total number of dispensaries was therefore 38 against 36 in 1892. The new dispensary at Badnera is called the "Jehangir Hormusji Hospital," and is due to the liberality of Mr. Jehangir Hormusji, Agent of the Manufacturing Company at that place.

Patients treated.

167. The following table shows the extent of medical relief afforded at the dispensaries during the years 1892 and 1893:—

Year.	In-door patients.						Out-door patients.		Total of in-door and out-door patients.
	Number treated.	Number cured.	Deaths.	Percentage of deaths to total treated.	Number of beds available.	Average daily attendance.	Number treated.	Average daily attendance.

1893 ...	2,227	1,822	127	5·7	158	63·67	270,021	1,965·2	272,248

Classification of patients.

168. Of the total number of patients treated in the year under report, 1,037 were Europeans and Eurasians, 158,917 Hindus, 103,578 Mahomedans, and 8,686 belonged to other classes. According to sex 124,519 were men, 40,583 women, and 107,146 children.

Diseases treated

169. The principal disease from which the patients suffered was malarial fever. Towards the year's increased attendance eye-diseases contributed the largest number—6,895; skin diseases 5,396; worms 4,284; malarial fever 2,318. The chief increase in the number of patients treated was under these four heads of disease. Cholera prevailed in an epidemic form in all districts, and 316 patients were treated in 16 dispensaries, 21 of whom were in-door patients. There were 308 cases of scurvy treated against 269 in the previous year. Influenza also prevailed in an epidemic form throughout the province.

Surgical operations.

170. There were 151 major operations performed during the year under report as against 223 in the previous year. Including the 5 cases remaining from previous year, 106 were cured, 22 relieved, 10 discharged otherwise, 10 died, and 6 remained in hospital under treatment on the last day of the year. The number of minor operations amounted to 9,086 as against 8,637 in the previous year.

Income and expenditure.

171. The following abstract compares the financial state of the dispensaries for the years 1892 and 1893:—

SECTION IV.

Sanitation.

Expenditure on sanitation by Municipalities.

172. It will be seen from paragraph 76 *ante* of this report that the total number of municipalities in the province increased during the year from eight to eleven. Their total estimated income (excluding opening balances on 1st January 1893) was Rs. 2,42,611, of which 25·3 per cent. was spent on conservancy, 4 per cent. on drainage, and 69·4 per cent. on water supply, the increase under the last head being due to the Kapsi water-supply scheme for the town of Akola, now nearing completion.

Expenditure on sanitation by District Local Boards.

173. The total expenditure incurred by District Local Boards on works of sanitary improvement was Rs. 93,578 (exclusive of a sum of Rs. 50,659 spent on works not purely sanitary) as against Rs. 1,48,571 in the preceding year. No large works were undertaken, yet a good deal was done during the year to improve the public health, especially under water-supply.

Sanitary works executed by the Public Works Department.

174. The sanitary works executed by the Public Works Department and in progress during the year are shown below :—

SECTION V.

Vaccination.

Staff.

175. The establishment worked up to its full strength, the number of vaccinators employed throughout the year under report, *i.e.*, 1893-94, on executive work being 44.

Work done.

176. The work done during the years under report and 1892-93 is compared in the following table :—

Year	Primary vaccination.			Re-vaccination.			Average number of person vaccinated by each vaccinator.
	Total.	Successful.	Percentage of success.	Total.	Successful.	Percentage of success	
1892-93	101,774	96,306	94·7	44,108	10,945	24·8	3,316
1893-94	97,786	92,954	95·1	39,366	8,344	21·2	3,117

Of the total number of successful primary operations of the year 70,681 were performed on infants under one year of age; 20,370 on children over one and under six; and 1,903 on individuals over six years and adults. Thus out of every 100 persons successfully vaccinated, there were 76·0 infants, 21·9 children between one and six, and 2·1 of other ages.

Effects of vaccination as a prophylactic against small-pox.

177. The following figures exhibit the influence of vaccination in checking small-pox :—

Expenditure.

178. The total cost of the establishment, which is entirely met from provincial funds, was Rs. 17,495-7-6 in 1893-94 as compared with Rs. 17,234-7-10 in the previous year. The increase of Rs. 261 is due to the increase in the establishment for the Melghat entertained in August 1892. The pay of the sanctioned establishment amounted to Rs. 17,484 per annum. The average cost of each successful case was 2 annas 9 pies, against 2 annas 7 pies in 1892-93.

CHAPTER VII.

INSTRUCTION.

SECTION I.

General System of Public Instruction.

179. Information regarding the general system of public instruction will be found in paragraphs 197 to 206 on pages 95 to 98 of the Administration Report for 1892-93.

SECTION II.

Education.

Total number of schools and scholars.

180. The total number of schools at the close of the year under report (1893-94) amounted to 1,326, including 52 for girls, and the number of scholars to 52,432, of whom 50,168 were boys and 2,264 girls. The percentage of male scholars to male population of school-going age was 22·24, and of female scholars to female population of school-going age 1·07, the corresponding percentages for 1892-93 being respectively 22·92 and 1. The following statement shows the different classes of schools and the pupils in them at the close of the years 1892-93 and 1893-94 :—

(b) Do. 17 do. do. do.
(c) This excludes 244 girls attending boys' schools.

Owing to the extension of the Berar Rural Boards Law to the Wun District the 60 Government primary schools in that district were during the year under report transferred to the management of the Wun District Board.

Schools for boys by districts.

181. The following table shows the distribution of schools for boys according to districts during 1892-93 and 1893-94 :—

University education.

182. The total number of students holding Berar scholarships in the colleges of the Bombay Presidency on the 31st March 1894 was 8, the number at the close of 1892-93 being 6. During the year under report, four of the scholars passed the "Previous" examination and one the "Intermediate" examination. Of the ex-students of the Akola and Amraoti high schools who did not hold Berar scholarships on the 31st March 1894, six passed the "Previous" examination, one the first B A. examination, eight the second B.A. examination, one the M.A. examination and one the LL.B. examination.

Secondary education.

183. The total number of secondary schools and the pupils studying in them has been already shown in the table in paragraph 180 *ante*. The average daily attendance in the two high schools was 337, and in the 24 "middle" or Anglo-vernacular schools 3,336. The aggregate cost of these 26 schools amounted to Rs 86,467, of which 73·4 per cent. was met from provincial revenues, 22·8 per cent. from school fees, and 3·8 per cent. from the municipal fund and subscriptions. Taking the two high schools only, their cost amounted to Rs. 23,699, of which 73·5 per cent. was met from provincial revenues, and the balance, *i.e.*, 26·5 per cent., from fees; while of the aggregate expenditure of the middle schools 73·4 per cent. was met from provincial revenues, 21·4 per cent. from fees, and 5·2 per cent. from the municipal fund and subscriptions. Taking all the secondary schools, the average cost of educating each pupil amounted to Rs. 18-12-5 against Rs. 17-8-2 in 1892-93.

The total number of candidates sent up by the two high schools for the Bombay matriculation examination was 28, of whom 17 or nearly 61 per cent. passed; the percentage of success achieved by all the public schools taken together who sent up candidates for the Bombay matriculation examination being about 35. The total number of boys from the 24 middle schools who appeared for the middle school examination was 277, and of these 183 or 66 per cent. were successful.

Primary public schools for boys under public management.

184. The following table furnishes statistics relating to primary schools for boys under public management :—

The total number of pupils of primary schools under public management examined by the inspecting officers was 19,489, of whom 68·3 per cent. were successful, the corresponding percentage for 1892-93 being 65·6.

Primary public schools for boys under private management.

185. It will be seen from the table in paragraph 180 *ante* that the total number of primary public schools for boys under private management was 651. The distribution of these schools by districts and other particulars regarding them are shown in the following table:—

District.	No. of schools on 31st March 1894.	No. of schools inspected and examined during 1893-94.	No. of pupils examined.	No. of schools which earned grants and prizes during 1893-94.	No. of pupils who earned grants-in-aid.	Amount of grants earned.

Education of Europeans and Eurasians.

186. The Anglican school at Akola having been closed for want of a sufficient number of pupils during the year under report, there now remains only one school in the province for Europeans and Eurasians, *viz.*, the Catholic school at Amraoti. At the close of the year under report, there were 15 boys and 33 girls in this school, against 21 boys and 35 girls at the close of the previous year. The average daily attendance was 36. The school was examined in April 1894 last, when the highest standard taught to the girls was the fifth and to the boys the third. Out of 11 boys examined 8 passed; and out of 26 girls examined 25 passed.

Education of Muhammadans.

187. The following table sums up the statistics of Government, District Board, and Municipal Hindustani schools:—

Total No. of schools on 31st March						Total No. of scholars on 31st March						Total No. of pupils examined and passed under standards I—VIII.	
1893.			1894.			1893.			1894.				
Boys.	Girls.	Total	Boys.	Girls.	Total	Boys.	Girls.	Total.	Boys.	Girls.	Total.	Examined.	Passed.

											Total for 1892-93 ...	1,934	1,353

In this table Muhammandan boys attending other than Hindustani or Anglo-Hindustani schools have not been included. If 45 Muhammadan boys attending high schools, 21 attending the Training College and 1,989 studying in the Marathi and Anglo-Marathi schools, be added, and 217 non-Muhammadans in Hindustani schools be deducted, the total number of Muhammadan pupils in schools under public management at the close of the year 1893-94 will be found to be 6,189 against 6,446 at the close of 1892-93.

The number of Muhammadan pupils in schools under private management on the 31st March 1894 was 877 against 951 on the corresponding date of 1893. Thus the total number of Muhammadan pupils under instruction at the close of the year under report was 7,066 against 7,397 on the last day of the previous year.

Education of aborigines.

188. There is only one school at Chikalda for the aboriginal races. On the 31st March 1894, the total number of aboriginal pupils in the province was 119 against 123 at the close of the previous year. The numbers examined and passed were 38 and 23 respectively, against 33 and 22 in the previous year. The highest standard in which boys passed during the year under report was the 5th against the 4th in 1892-93.

Education of low castes.

189. The total number of boys of low castes in schools under public management at the close of the year under report was 1,798 against 1,810 in 1892-93 and 1,585, the average of the three years 1889-90 to 1891-92; and the number of low-caste pupils who attended schools under private management was 647 against 563 in the previous year. Thus the aggregate number of such pupils under instruction at the close of the year under report was 2,445 against 2,373 at the close of 1892-93. The total number of pupils examined in standard I to VII was 535, of whom 312 passed successfully.

Female education.

190. It will be seen from the table in paragraph 180 *ante* that the total number of schools for girls was 52 and the number of girls under instruction 2,264. The number of girls in girls' schools proper was, however, only 1,906, of whom 1,773 belonged to 46 District Board and Municipal schools, 130 to five aided schools, and three to a private school. The remaining 358 girls were studying in various boys' schools. Six hundred and twenty-nine girls passed examinations in standards I to VI of the prescribed course.

The aggregate expenditure of the 46 District Board and Municipal girls' schools amounted to Rs. 10,751, the annual cost of educating each pupil being Rs. 6-4-4 against Rs. 6-0-3 in 1892-93. The fees collected came to Rs. 303-5-0.

Classification of pupils by race or creed.

191. The following is a comparative statement for the last five years of the pupils in Government, District Board and Municipal schools classified according to race or creed:—

Physical education.

192. The total number of gymnasia at the close of the year under report was 487 against 475 at the close of 1892-93. The number of circle teachers was 12, and the number of gymnasia visited by them during the year was 451. The following extract is taken from the educational report of the province for 1893-94:—

"Inspecting officers and schoolmasters continue to take great interest in physical education. The standards of physical exercises have generally worked well, and the reports of the Deputy Educational Inspectors show that this branch of education receives special attention."

Training of teachers for secondary schools.

193. The class of five men referred to in paragraph 217 of the Administration Report for 1892-93 was examined during the year, and four of the students passed successfully. For want of properly qualified pupils, no class has been formed since.

Training of teachers for primary schools.

194. The total number of students in the Akola Training College at the close of the year under report was 75—60 on the Marathi side, and 15 on the Hindustani side. In addition to these, the number of pupil-teachers attached to Anglo-vernacular schools amounted to 17. Of the aggregate number of pupils, 29 passed the first year's course and 20 passed the certificate examination. Thirty-one of the passed students obtained employment during the year.

Drawing.

195. The two high schools and the Training College sent up 68 candidates for the first grade examination of the Bombay School of Arts. Nine of the candidates passed in all heads and obtained certificates.

Industrial training.

196. As stated in paragraph 219 of the Administration Report for 1892-93, there is only one industrial school in the province; it belongs to the American Mission and is located at Akola. The number of pupils on 31st March 1894 was 8, of whom 6 were Christians and two Muhammadans. Six of the boys were learning carpentering and two blacksmithing. Ten boys are reported to have completed their course of instruction during the five years that the school has been open. Of these all except one continue to attend the school for further practice.

The establishment of an industrial school at Amraoti has been sanctioned since the close of the year under report.

School fees and popular contributions.

197. The total amount of fees realized in all classes of Government schools and in Local Board primary schools came to Rs. 58,192-15-0 against Rs. 57,486-6-4 in 1892-93. Of the former amount, Rs. 6,712-8-0 were realized in high schools, Rs. 14,921-8-6 in middle schools, and Rs. 36,558-14-6 in primary schools. The amounts contributed by the people for educational purposes came to Rs. 9,631-13-5 against Rs. 9,377-9-0 in 1892-93.

Expenditure.

198. The aggregate expenditure on education during the year under report came to Rs. 4,51,155-8-3 against Rs. 4,37,544-14-6 in 1892-93. Details are furnished in the following table:—

SECTION III.

Literature and the Press.

Text-book Committee.

199. At the beginning of the year the Text-book Committee had 12 books on hand for review, and 6 books were sent to it during the year. The Committee reported on 7 books, the rest being still under consideration.

Book depots.

200. There has been no change in the number of book depôts during the year under report, the number consisting of one central book depôt at Akola and 29 branch book depôts attached to Government or Local Board schools in towns and large villages in all the districts. The stock account of the depôt for the year 1893-94 is as follows:—

		Rs.	a.	p.

Literature.

201. The number of books registered under Act XXV of 1867 during the year under report was 20 against 21 in the previous year. Eight of these were issues of the *Berar School Paper* and eleven were the issues of *Duyan Sangraha*, a monthly literary magazine. There was only one other publication, which was entitled the *Varhad Bhugola Patrak*, or Geography of Berar. The *Berar School Paper* was printed at the Akola *Shudha Varhadhi Press* and the *Duyan Sangraha* and the *Varhad Bhugola Patrak* at the *Amraoti Pramoda Sindhu Press*. The last mentioned book has been registered for copyright.

Presses.

202. The number of printing presses was ten—five in the Akola district, three in the Amraoti district, and two in the Ellichpur district.

Public libraries.

203. Four libraries or reading rooms were opened and five closed during the year, and consequently the number on the 31st March 1894 was 39 against 40 on the last day of the preceding year. One new library was opened in the Akola district, one in Buldana, and two in Amraoti. Of the five libraries closed, three were in the Akola district and two in the Amraoti district.

"Berar Vaktrutwo-tejak Sabha," Amraoti.	The object of the institution has been to encourage and foster the habit of delivering public lectures on popular and current literary and scientific subjects, and thereby to revive and to improve upon the rather neglected or forgotten art of speech among the native societies.	Not stated ..	Not stated ...	1	1874	This sabha or society has been established in connection with the Amraoti City Library, and is considered a part of the institution. The balances, if any, after deducting the expenses, are carried to the library's account. But when the expenses exceed the income they are paid from the library fund.
"Suhrit Samaja" ...	At Amraoti there is an association of young men called "Suhrit Samaja" or assembly of friends. This has been founded with the object of effecting mutual educational improvement. The members subscribe to some newspapers, and meet every morning or evening for reading. Essays on various topics are frequently read and discussed, and sometimes lectures are delivered at their meetings at the old house formerly occupied by the Native General Library in the town. The *Suhrit Samaja* was established on the 1st March 1891.	do.	do.	...	1891	
Do. ...	The ex-students of the Berar High Schools meet at Akola and Amraoti in alternate years during the Holi holidays. At this gathering lectures on literary and social subjects are delivered by some old students of the high schools.	do.	do.	...	...	
"Jalsai-Imdad-i-tahsil-i-Ulum-i-Mussulmani Berar."	At Akola there is a Mahomedan association called "Jalsai-Imdad-i-tahsil-i-Ulum-i-Mussalmani Berar" which has been established in order to encourage English education among Mahomedans. They annually give four scholarships of Rs. 4 each, tenable by Mahomedan pupils in the Amraoti High School and in the Anglo-Urdu schools at Akola and Amraoti.	do.	do.	...	...
